Med venlig hilsen

Niels Yde

Parliamentary seminar on the EU's Northern Dimension, Oulu, 7 April 2005

The Eduskunta's Grand Committee has decided to organise, in conjunction with the Russian Federal Council and the City of Oulu's 400th Anniversary organisers, the parliamentary seminar "The Northern Dimension – Mutual Opportunities". The seminar will be held in Oulu, Finland on 7 April 2005.

During the forthcoming United Kingdom Presidency, the European Union will begin ministerial-level discussions on what is to succeed the second action plan of the European Union's Northern Dimension.

Since the Cologne European Council in June 1999, the Northern Dimension has been the European Union's response to the inter-dependence of the Union, the Baltic Sea Region and Russia. The Northern Dimension has provided a framework for the EU's activities in relation to Northwestern Russia, coordinating inputs from different instruments (Tacis, Interreg, Phare) and for various regional and local initiatives. The new Neighbourhood and Partnership Instrument, proposed as part of the 2007 - 2013 financial perspectives, should be seen as an opportunity to strengthen and develop the Northern Dimension. Of particular importance is the partnership element, i.e. integrating Russia into the planning and implementation of this initiative that is fundamental to the stability of northern Europe. Russia's economic potential is an important element also in view of attaining the goals set at the Lisbon European Council.

It would be useful for parliaments to participate at an early stage in the formulation of the Northern Dimension after 2007. A strong parliamentary commitment would help increase the momentum of this important initiative.

The seminar is open to members of the Parliaments of the European Union's member states and of Russia, Iceland and Norway, the European Parliament and the parliamentary organisations active in the northern and Baltic Sea regions. The seminar should be of particular interest to the European and Foreign Affairs committees of national parliaments. We have been assured of a significant participation from the Russian Federal Council and State Duma.

You will find the seminar's programme and practical information overleaf. Registrations are requested by 6 March 2005, on the enclosed form, addressed to

marjo.lassila@eduskunta.fi or by fax +358 9 432 2069.
