Forslag til

RÅDETS AFGØRELSE

om undertegnelse og midlertidig anvendelse af den økonomiske partnerskabsaftale mellem Det Europæiske Fællesskab og dets medlemsstater på den ene side og Cariforumlandene på den anden side

(forelagt af Kommissionen)

BEGRUNDELSE

Vedlagte forslag udgør de retlige instrumenter for undertegnelsen, den midlertidige anvendelse og indgåelsen af den økonomiske partnerskabsaftale (herefter "ØPA") mellem Det Europæiske Fællesskab og dets medlemsstater på den ene side og Det Caribiske Forum af AVS-stater (herefter "Cariforum") på den anden side.

i) Forslag til Rådets afgørelse om undertegnelse og midlertidig anvendelse af ØPA.

ii) Forslag til Rådets afgørelse om indgåelse af ØPA.

Cariforum-ØPA'en blev forhandlet på plads i overensstemmelse med målsætningerne for ØPA'er som fastsat i Cotonouaftalen[1] og forhandlingsdirektiverne for økonomiske partnerskabsaftaler med AVS-staterne, der blev vedtaget af Rådet den 12. juni 2002. Forhandlingerne blev afsluttet med paraferingen af ØPA'en den 16. december 2007, dvs. inden udløbet den 31. december 2007 af den handelsordning, der er fastsat i bilag V til Cotonouaftalen, og af WTO-undtagelsen (waiver) for denne handelsordning.

Som et resultat blev alle Cariforumlande føjet til listen over stater i bilag I til forordningen om ØPA-markedsadgang, der blev vedtaget af Rådet den 20. december 2007[2], som fra den 1. januar 2008 har haft fordel af det tilbud om adgang til markedet i Fællesskabet, der blev fremsat inden for rammerne af ØPA'er. Landene vil være permanent opført på denne liste, når alle parter har ratificeret ØPA'en. Der opnås således en enkelt harmoniseret handelsordning med EU, der giver en forbedret markedsadgang for alle Cariforumlande, herunder Haiti, der er anerkendt af FN som et mindst udviklet land.

Den vestindiske ØPA er den første omfattende økonomiske partnerskabsaftale, der indgås. Den omfatter alle de foranstaltninger, der er nødvendige for at etablere et frihandelsområde, der er i overensstemmelse med bestemmelserne i artikel XXIV i GATT 1994[3]. Den omfatter ligeledes et afsnit om tjenesteydelser, investeringer og e-handel samt listen over relevante forpligtelser, der er i overensstemmelse med bestemmelserne i artikel V i GATS[4].

ØPA'en indeholder også bestemmelser om told- og handelslettelser, tekniske handelshindringer, sundheds- og plantesundhedsforanstaltninger, landbrug og fiskeri, løbende betalinger og kapitalbevægelser, konkurrence, innovation og intellektuel ejendomsret, gennemsigtighed i forbindelse med offentlige indkøbskontrakter, dialog om finansielle anliggender, gennemsigtighed og bedste praksis inden for skattepolitik samt miljømæssige og sociale aspekter. Den bæredygtige udvikling fremmes yderligere ved inddragelse af civilsamfundet og parlamentarikere i blandede udvalg og gennem særlige konsultationsprocedurer.

Der er ligeledes en række bestemmelser om udviklingssamarbejde, hvor der fastsættes prioriterede indsatsområder for ØPA'ens gennemførelse. Hvert selvstændigt kapitel i aftalen indeholder specifikke samarbejdsområder og en erklæring om udviklingssamarbejde, der

3 Den almindelige overenskomst om told og udenrigshandel (1994).

4 Den almindelige overenskomst om handel med tjenesteydelser.

knytter aftalen til EU-strategien for handelsrelateret bistand og bekræfter Kommissionens og medlemsstaternes intention om at bidrage til en fond for regionaludvikling.

De institutionelle bestemmelser omfatter en bestemmelse om et fælles Cariforum/EF-råd (herefter "fælles råd"), der har til opgave at overvåge ØPA'ens gennemførelse. Det fælles råd består af repræsentanter for Cariforumlandene og af medlemmer af Rådet og Kommissionen. Det fælles råd bistås af et fælles Cariforum/EF-udvalg for handel og udvikling.

ØPA'en omfatter en bestemmelse om omfattende overvågning af ØPA'ens virkning. Dette vil ske gennem oprettelsen af et parlamentarisk Cariforum/EF-udvalg for at skabe et forum for medlemmer af Europa-Parlamentet og Cariforumlandenes parlamenter. Et rådgivende Cariforum/EF-udvalg vil desuden bistå det fælles råd med at fremme dialogen og samarbejdet mellem repræsentanter for civilsamfundet.

ØPA'en indeholder en bestemmelse om, at aftalen anvendes midlertidigt, indtil den træder i kraft.

Kommissionen finder resultaterne af forhandlingerne tilfredsstillende og i overensstemmelse med Rådets forhandlingsdirektiver, og den anmoder Rådet om:

– at give bemyndigelse til undertegnelse på Det Europæiske Fællesskabs vegne af den vestindiske ØPA

– at godkende den midlertidige anvendelse af ØPA'en, indtil den træder i kraft

– at indgå ØPA'en på Det Europæiske Fællesskabs vegne.

Europa-Parlamentet vil skulle afgive samstemmende udtalelse om ØPA'ens indgåelse.

Medlemsstaterne er også parter i aftalen, som derfor skal godkendes af dem efter deres interne procedurer.

PART I

TRADE PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

Article 1

Objectives

The objectives of this Agreement are:

a) Contributing to the reduction and eventual eradication of poverty through the establishment of a trade partnership consistent with the objective of sustainable development, the Millennium Development Goals and the Cotonou Agreement;

b) Promoting regional integration, economic cooperation and good governance thus establishing and implementing an effective, predictable and transparent regulatory framework for trade and investment between the Parties and in the CARIFORUM region;

c) Promoting the gradual integration of the CARIFORUM States into the world economy, in conformity with their political choices and development priorities;

d) Improving the CARIFORUM States' capacity in trade policy and trade related issues;

e) Supporting the conditions for increasing investment and private sector initiative and enhancing supply capacity, competitiveness and economic growth in the CARIFORUM region;

f) Strengthening the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, taking into account their respective levels of development and consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between

them and reinforce, broaden and deepen cooperation in all areas relevant to trade and investment.

Article 2

Principles

1. This Agreement is based on the Fundamental Principles as well as the Essential and Fundamental Elements of the Cotonou Agreement, as set out in Articles 2 and 9, respectively, of the Cotonou Agreement. This Agreement shall build on the provisions of the Cotonou Agreement and the previous ACP-EC Partnership Agreements in the area of regional cooperation and integration as well as economic and trade cooperation.

2. The Parties agree that the Cotonou Agreement and this Agreement shall be implemented in a complementary and mutually reinforcing manner.

Article 3

Sustainable development

1. The Parties reaffirm that the objective of sustainable development is to be applied and integrated at every level of their economic partnership, in fulfilment of the overarching commitments set out in Articles 1, 2 and 9 of the Cotonou Agreement, and especially the general commitment to reducing and eventually eradicating poverty in a way that is consistent with the objectives of sustainable development.

2. The Parties understand this objective to apply in the case of the present Economic Partnership Agreement as a commitment that:

   (a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective population and of future generations;

   (b) decision-taking methods embrace the fundamental principles of ownership, participation and dialogue.

3. As a result the Parties agree to work cooperatively towards the realization of a sustainable development centred on the human person, who is the main beneficiary of development.

Article 4

Regional integration

1. The Parties recognise that regional integration is an integral element to their partnership and a powerful instrument to achieve the objectives of this Agreement.

2. The Parties recognize and reaffirm the importance of regional integration among the CARIFORUM States as a mechanism for enabling these States to achieve greater

economic opportunities, enhanced political stability and to foster their effective integration into the world economy.

3. The Parties acknowledge the efforts of the CARIFORUM States to foster regional and sub-regional integration amongst themselves through the Revised Treaty of Chaguaramas establishing the Caribbean Community including the CARICOM Single Market and Economy, the Treaty of Basseterre establishing the Organization of Eastern Caribbean States and the Agreement establishing a Free Trade Area between the Caribbean Community and the Dominican Republic.

5. The Parties agree that their partnership builds upon and aims at deepening regional integration and undertake to cooperate to further develop it, taking into account the Parties' levels of development, needs, geographical realities and sustainable development strategies, as well as the priorities that the CARIFORUM States have set for themselves and the obligations enshrined in the existing regional integration agreements identified in paragraph 3.

6. The Parties commit themselves to cooperating in order to facilitate the implementation of this Agreement and to support CARIFORUM regional integration.

Article 5

Monitoring

The Parties undertake to continuously monitor the operation of the Agreement through their respective participative processes and institutions, as well as those set up under this Agreement, in order to ensure that the objectives of the Agreement are realized, the Agreement is properly implemented and the benefits for men, women, young people and children deriving from their Partnership are maximised. The Parties also undertake to consult each other promptly over any problem arising.

Article 6

Cooperation in international fora

The Parties shall endeavour to cooperate in all international fora where issues relevant to this partnership are discussed.

Article 7

Development cooperation

1. The Parties recognise that development cooperation is a crucial element of their Partnership and an essential factor for the realization of the objectives of this

Agreement as laid down in Article 1. This cooperation can take financial and non-financial forms.

2. Development cooperation for regional economic cooperation and integration, as provided for in the Cotonou Agreement, shall be carried out so as to maximise the expected benefits of this Agreement. Areas of cooperation and technical assistance are set out, as appropriate, in the individual Chapters of this Agreement. Cooperation shall be implemented according to the modalities provided for in this Article, shall be kept under ongoing review and shall be revised as necessary according to the provisions of Article 246 of this Agreement.

3. The European Community financing pertaining to development cooperation between CARIFORUM and the European Community supporting the implementation of this Agreement shall be carried out within the framework of the rules and relevant procedures provided for by the Cotonou Agreement, in particular the programming procedures of the European Development Fund (EDF), and within the framework of the relevant instruments financed by the General Budget of the European Union. In this context, supporting the implementation of this Agreement shall be one of the priorities.

4. Commensurate with their respective roles and responsibilities, the European Community and the Signatory CARIFORUM States shall take all measures necessary to ensure the effective mobilisation, provision and utilisation of resources aimed at facilitating the development cooperation activities provided for in this Agreement.

5. The Member States of the European Union collectively undertake to support, by means of their respective development policies and instruments, development cooperation activities for regional economic cooperation and integration and for the implementation of this Agreement in CARIFORUM States and at the regional level, in conformity with the complementarity and aid effectiveness principles.

6. The Parties shall cooperate to facilitate the participation of other donors willing to support the cooperation activities referred to in paragraph 5 and the efforts of the CARIFORUM States in achieving the objectives of this Agreement.

(iii) The provision of support measures aimed at promoting private sector and enterprise development, in particular small economic operators, and enhancing the international competitiveness of CARIFORUM firms and diversification of the CARIFORUM economies;

(iv) The diversification of CARIFORUM exports of goods and services through new investment and the development of new sectors;

(v) Enhancing the technological and research capabilities of the CARIFORUM States so as to facilitate development of, and compliance with, internationally recognised sanitary and phytosanitary measures and technical standards and internationally recognised labour and environmental standards;

(vi) The development of CARIFORUM innovation systems, including the development of technological capacity;

(vii) Support for the development of infrastructure in CARIFORUM States necessary for the conduct of trade.

2. The Development cooperation priorities as broadly articulated in paragraph 1 and further specified in the individual Chapters of this Agreement shall be implemented according to the modalities provided for in Article 7.

The Parties agree on the benefits of a regional development fund representative of the interests of all CARIFORUM States to mobilise and channel Economic Partnership Agreement related development resources from the EDF and other potential donors. The CARIFORUM States shall in this regard endeavour to establish such a fund within two years of the date of signature of this Agreement.

PART II

TRADE AND TRADE-RELATED MATTERS

Chapter 1

CUSTOMS DUTIES

Article 9

Scope

The provisions of this Chapter shall apply to all goods originating in the EC Party and in any CARIFORUM State.

Article 10

Rules of origin

For the purposes of this Chapter, "originating" means qualifying under the rules of origin set out in Protocol I. Within the first five years of the entry into force of this Agreement the Parties shall review the provisions of this Protocol, with a view to further simplifying the concepts and methods used for the purpose of determining origin in the light of the development needs of the CARIFORUM States. In such review, the Parties shall take into account the development of technologies, production processes and all other factors which may require modifications to the provisions of this Protocol. Any such modifications shall be effected by a decision of the Joint CARIFORUM-EC Council.

Article 11

Customs duty

A customs duty includes any duty or charge of any kind, including any form of surtax or surcharge, imposed in connection with the importation or exportation of goods, but does not include any:

(a) internal taxes or other internal charges imposed in accordance with Article 27;

(b) antidumping, countervailing or safeguard measures applied in accordance with Chapter 2 of Title I;

(c) fees or other charges imposed in accordance with Article 13.

Article 12

Classification of goods

The classification of goods covered by this Agreement shall be that set out in the Harmonised Commodity Description and Coding System ("HS") in conformity with the rules of classification applicable thereto. The Special Committee on Customs Cooperation and Trade Facilitation as provided for under Article 36 shall address any issue related to the classification of goods which arise in the operation of this Agreement.

Article 13

Fees and other charges

Fees and other charges referred to in Article 11 shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection for domestic products or a taxation of imports or exports for fiscal purposes. They shall not exceed the real value of the service rendered. Fees and charges shall not be imposed for consular services.

Article 14

Elimination of customs duties on originating exports

1. Customs duties on exports shall not be applicable to goods originating in the CARIFORUM States and imported into the EC Party and vice versa.

2. Notwithstanding the above, the Signatory CARIFORUM States included in Annex 1 shall eliminate the customs duties on exports set down in that Annex within three years of signature of this Agreement.

Article 15

Customs duties on imports of products originating in the CARIFORUM States

Products originating in the CARIFORUM States shall be imported into the EC Party free of customs duties except for the products indicated, and under the conditions defined, in Annex 2.

Article 16

Customs duties on imports of products originating in the EC Party

1. Products originating in the EC Party shall, on their importation into the CARIFORUM States, not be subject to customs duties higher than those indicated in Annex 3.

2. Products originating in the EC Party shall, on their importation into the CARIFORUM States, be exempt from all customs duties within the meaning of Article 11 other than those listed in Annex 3.

3. For a period of ten years after the signature of this Agreement, the CARIFORUM States may continue to apply any such customs duties within the meaning of Article 11 other than those listed in Annex 3 to any imported product originating in the EC Party, provided that these duties were applicable to this product on the date of signature of this Agreement, and that the same duties are imposed on the like product imported from all other countries.

4. The Signatory CARIFORUM States shall not be required to begin a phased elimination of the customs duties other than those listed in Annex 3 and referred to in paragraph 2 in the seven years subsequent to the signature of this Agreement. This process shall be accompanied by the support of the necessary fiscal reforms as provided for under Article 22.

5. With a view to ensuring transparency, such duties shall be notified to the CARIFORUM-EC Trade and Development Committee within six months from the date of signature of this Agreement. Their elimination shall also be notified promptly to the CARIFORUM-EC Trade and Development Committee.

6. In the event of serious difficulties in respect of imports of a given product, the schedule of customs duty reductions and eliminations may be reviewed by the CARIFORUM-EC Trade and Development Committee by common accord with a view to possibly modifying the time schedule for reduction or elimination. Any such modification shall not lead to the time periods in the schedule for which the review has been requested being extended in respect of the product concerned beyond the maximum transitional period for duty reduction or elimination for that product as provided for in Annex 3. If the CARIFORUM-EC Trade and Development Committee has not taken a decision within thirty days of an application to review the timetable, the CARIFORUM States may suspend the timetable provisionally for a period that may not exceed one year.

Article 17

Modification of tariff commitments

In the light of the special development needs of Antigua and Barbuda, Belize, The Commonwealth of Dominica, Grenada, The Republic of Guyana, The Republic of Haiti, Saint Lucia, Saint Vincent and the Grenadines and Saint Christopher and Nevis, the Parties may decide in the CARIFORUM-EC Trade and Development Committee to modify the level of customs duties stipulated in Annex 3, which may be applied to a product originating in the EC Party upon its importation into the CARIFORUM States. The Parties shall ensure that any such modification does not result in an incompatibility of this Agreement with the requirements of Article XXIV of the GATT 1994. The Parties may also decide to simultaneously adjust customs duty commitments stipulated in Annex 3 and relating to other products imported from the EC Party, as appropriate.

Article 18

Movement of goods

The Parties recognize the goal of having customs duties levied only once on originating goods imported into the EC Party or into the Signatory CARIFORUM States. Pending the establishment of the necessary arrangements for achieving this goal, the Signatory CARIFORUM States shall exercise their best endeavours in this regard. The EC Party shall provide the technical assistance necessary for the achievement of this goal.

Article 19

More favourable treatment resulting from free trade agreements

1. With respect to matters covered by this Chapter, the EC Party shall accord to the CARIFORUM States any more favourable treatment applicable as a result of the EC Party becoming party to a free trade agreement with third parties after the signature of this Agreement.

2. With respect to matters covered by this Chapter, the CARIFORUM States or any Signatory CARIFORUM State shall accord to the EC Party any more favourable treatment applicable as a result of the CARIFORUM States or any Signatory

CARIFORUM State becoming party to a free trade agreement with any major trading economy after the signature of this Agreement.

3. The provisions of this Chapter shall not be so construed as to oblige the EC Party or any Signatory CARIFORUM State to extend reciprocally any preferential treatment applicable as a result of the EC Party or any Signatory CARIFORUM State being party to a free trade agreement with third parties on the date of signature of this Agreement.

4. For the purposes of this Article, 'major trading economy' means any developed country, or any country or territory accounting for a share of world merchandise exports above 1 percent in the year before the entry into force of the free trade agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through an free trade agreement accounting collectively for a share of world merchandise exports above 1.5 percent in the year before the entry into force of the free trade agreement referred to in paragraph 2.[1]

5. Where any Signatory CARIFORUM State becomes party to a free trade agreement with a third party referred to in paragraph 2 and such a free trade agreement provides for more favourable treatment to such third party than that granted by the Signatory CARIFORUM State to the EC Party pursuant to this Agreement, the Parties shall enter into consultations. The Parties may decide whether the concerned Signatory CARIFORUM State may deny the more favourable treatment contained in the free trade agreement to the EC Party. The Joint CARIFORUM-EC Council may adopt any necessary measures to adjust the provisions of this Agreement.

Article 20

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party or a Signatory CARIFORUM State has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, *inter alia*:

(a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;

[1] For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-EU trade) shall be used.

(b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;

(c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:

(a) The Party or Signatory CARIFORUM State which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the CARIFORUM-EC Trade and Development Committee of its finding together with the objective information and enter into consultations within the CARIFORUM-EC Trade and Development Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

(b) Where the Parties have entered into consultations within the CARIFORUM-EC Trade and Development Committee as above and have failed to agree on an acceptable solution within 3 months following the notification, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the CARIFORUM-EC Trade and Development Committee without undue delay.

(c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party or Signatory CARIFORUM State concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the CARIFORUM-EC Trade and Development Committee. They shall be subject to periodic consultations within the CARIFORUM-EC Trade and Development Committee in particular with a view to their termination as soon as the conditions for their application no longer exist.

5. At the same time as the notification to the CARIFORUM-EC Trade and Development Committee under paragraph 4(a) of this Article, the Party or Signatory CARIFORUM State concerned should publish a notice to importers in its official journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 20 bis

In furtherance of the efforts of the Parties to find an acceptable solution to the matters referred to in paragraph 2 of Article 20, the Party or Signatory CARIFORUM State against which a

finding has been notified to the CARIFORUM-EC Trade and Development Committee may also seek recourse to a Mediator, in accordance with the provisions of Article 205, paragraphs 2 to 5. The Mediator's opinion shall be notified within the period of three months referred to in paragraph 4 (b) of Article 20.

Article 21

Treatment of administrative errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol I, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the CARIFORUM-EC Trade and Development Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.

For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.

3. The provisions of paragraph 2 shall apply for a period of five years, beginning with the date of entry into force of the Agreement. Not later than 120 days before the end of this period, the Joint CARIFORUM-EC Council shall review the operation of those provisions in the light of the development needs of the CARIFORUM States, with a view to determining whether to extend their application for a further period.

1. Notwithstanding Article 24, after having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Article 15 or 16 as the case may be, under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures referred to in paragraph 1 above may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

   (a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party; or

   (b) disturbances in a sector of the economy, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party, or

   (c) disturbances in the markets of like or directly competitive agricultural products[2] or in the mechanisms regulating those markets.

3. Safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent the serious injury or disturbances, as defined in paragraph 2. Those safeguard measures of the importing Party may only consist of one or more of the following:

   (a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement,

4. Without prejudice to paragraphs 1 to 3, where any product originating in one or more Signatory CARIFORUM State(s) is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under 2(a), (b) and (c) above to one or several of the EC Party's outermost regions, the EC Party may take surveillance or safeguard measures limited to the region or regions concerned in accordance with the procedures laid down in paragraphs 6 to 9.

5. (a) Without prejudice to paragraphs 1 to 3, where any product originating in the EC Party is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under 2(a), (b) and (c) above to a Signatory CARIFORUM State, the Signatory CARIFORUM State

Such provision is only applicable for a period of ten years from the date of entry into force of this Agreement. Measures must be taken in accordance with the procedures laid down in paragraphs 6 to 9.

6. (a) Safeguard measures referred to in this Article shall only be maintained for such a time as may be necessary to prevent or remedy serious injury or disturbances as defined in paragraphs 2, 4 and 5 above.

(b) Safeguard measures referred to in this Article shall not be applied for a period exceeding two years. Where the circumstances warranting imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two years. Where the CARIFORUM States or a Signatory CARIFORUM State apply a safeguard measure, or where the EC Party apply a measure limited to the territory of one or more of its outermost regions, such measures may however be applied for a period not exceeding four years and, where the circumstances warranting imposition of safeguard measures continue to exist, extended for a further period of four years.

(c) Safeguard measures referred to in this Article that exceed one year shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest.

(d) No safeguard measure referred to in this Article shall be applied to the import of a product that has previously been subject to such a measure, for a period of at least one year since the expiry of the measure.

7. For the implementation of the above paragraphs, the following provisions shall apply:

(b) The CARIFORUM-EC Trade and Development Committee may make any recommendation needed to remedy the circumstances which have arisen. If no recommendation has been made by the CARIFORUM-EC Trade and Development Committee aimed at remedying the circumstances, or no other satisfactory solution has been reached within 30 days of the matter being referred to the CARIFORUM-EC Trade and Development Committee, the importing party may adopt the appropriate measures to remedy the circumstances in accordance with this Article.

(c) Before taking any measure provided for in this Article or, in the cases to which paragraph 8 of this Article applies, as soon as possible, the Party or the signatory CARIFORUM State concerned shall supply the CARIFORUM-EC Trade and

Development Committee with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the parties concerned.

(d) In the selection of safeguard measures pursuant to this Article, priority must be given to those which least disturb the operation of this Agreement.

(e) Any safeguard measure taken pursuant to this Article shall be notified immediately to the CARIFORUM-EC Trade and Development Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

8. Where exceptional circumstances require immediate action, the importing party concerned, whether the EC Party, the CARIFORUM States or a Signatory CARIFORUM State as the case may be, may take the measures provided for in paragraph 3, 4 and/or 5 on a provisional basis without complying with the requirements of paragraph 7. Such action may be taken for a maximum period of 180 days where measures are taken by the EC Party and 200 days where measures are taken by the CARIFORUM States or a Signatory CARIFORUM State, or where measures taken by the EC Party are limited to the territory of one or more of its outermost regions. The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraph 6. In the taking of such provisional measures, the interest of all parties involved shall be taken into account. The importing party concerned shall inform the other party concerned and it shall immediately refer the matter to the CARIFORUM-EC Trade and Development Committee for examination.

9. If an importing party subjects imports of a product to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows liable to give rise to the problems referred to in this Article, it shall inform the CARIFORUM-EC Trade and Development Committee without delay.

10. Safeguard measures adopted under the provisions of this Article shall not be subject to WTO Dispute Settlement provisions.

2. Originating imports shall be accorded treatment no less favourable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

3. No Party or Signatory CARIFORUM State shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, no Party or Signatory CARIFORUM State shall otherwise apply internal quantitative regulations so as to afford protection to domestic production.

4. The provisions of this Article shall not prevent the payment of subsidies exclusively to national producers, including payments to national producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.

[3] For the purpose of paragraph 1 any modification of subsidy payments under existing subsidy programmes due to variations in the market conditions shall not be deemed to be either a new subsidy programme or an increase in subsidy.

2. With regard to any product as defined in paragraph 3 for which the CARIFORUM States have committed to the elimination of customs duties the EC Party undertakes to phase out all existing subsidies granted upon the exportation of that product to the territory of the CARIFORUM States. The modalities of such phasing out shall be decided by the CARIFORUM-EC Trade and Development Committee.

3. This Article applies to products as covered by Annex I of the WTO Agreement on Agriculture.

[13] These core labour standards are further elaborated, in accordance with the Declaration, in ILO Conventions concerning freedom of association, the elimination of forced labour, the abolition of child labour and the elimination of discrimination in the work place.

Chapter 5

REGULATORY FRAMEWORK

Section 1

Provisions of general application

Article 85

Mutual recognition

1. Nothing in this Title shall prevent the EC Party and the Signatory CARIFORUM States from requiring that natural persons must possess the necessary qualifications and/or professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

2. The Parties shall encourage the relevant professional bodies in their respective territories to jointly develop and provide recommendations on mutual recognition to the CARIFORUM-EC Trade and Development Committee, for the purpose of the fulfilment, in whole or in part, by investors and service suppliers of the criteria applied by the EC Party and by the Signatory CARIFORUM States for the authorisation, licensing, operation and certification of investors and service suppliers and, in particular, in the professional services sector.

3. In particular, the Parties shall encourage the relevant professional bodies in their respective territories to start negotiations no later than three years after entry into force of this Agreement in order to jointly develop and provide such recommendations on mutual recognition, among others, in the following disciplines: accounting, architecture, engineering and tourism.

4. On receipt of a recommendation referred to in the preceding paragraph, the CARIFORUM-EC Trade and Development Committee shall, within a reasonable time, review the recommendation with a view to determining whether it is consistent with this Agreement.

5. When, in conformity with the procedure set out in paragraph 2, a recommendation referred to in the same paragraph has been found to be consistent with this Agreement and there is a sufficient level of correspondence between the relevant regulations of the Parties and the Signatory CARIFORUM States, the Parties shall, with a view to implementing that recommendation, negotiate, through their competent authorities, an agreement on mutual recognition of requirements, qualifications, licences and other regulations.

6. Any such agreement shall be in conformity with the relevant provisions of the WTO Agreement and, in particular, Article VII of the GATS.

7. The CARIFORUM-EC Trade and Development Committee shall review progress made in mutual recognition every two years.

Article 86

Transparency

Subject to Article 235(3) the Parties and the Signatory CARIFORUM States shall respond promptly to all requests made by the other Party for specific information on any of their measures of general application or international agreements which pertain to or affect this Agreement. The Parties shall also establish one or more enquiry points to provide, upon request, specific information to investors and services suppliers of the other Party on all such matters. Such enquiry points are listed in Annex 5. Enquiry points need not be depositories of laws and regulations.

Article 87

Procedures

1. Where authorization is required for the supply of a service or commercial presence on which a specific commitment has been made, the competent authorities of the Parties and of the Signatory CARIFORUM States shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Parties or of the Signatory CARIFORUM States as the case may be shall provide, without undue delay, information concerning the status of the application.

2. The Parties and the Signatory CARIFORUM States shall maintain or institute judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting commercial presence, cross border supply of services or temporary presence of natural persons for business purpose. Where such procedures are not independent of the agency

entrusted with the administrative decision concerned, the Parties and the Signatory CARIFORUM States shall ensure that the procedures in fact provide for an objective and impartial review.

Section 2

Computer services

Article 88

Understanding on computer services

1. To the extent that trade in computer services is liberalised in accordance with Chapters 2, 3 and 4 of this Title, the EC Party and the Signatory CARIFORUM States subscribe to the understanding defined in the following paragraphs.

2. CPC 84, the United Nations code used for describing computer and related services, covers the basic functions used to provide all computer and related services: computer programs defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.

3. Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all services that provide:

   (a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or

   (b) computer programs defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programs; or

   (c) data processing, data storage, data hosting or database services; or

   (d) maintenance and repair services for office machinery and equipment, including computers; or,

   (e) training services for staff of clients, related to computer programs, computers or computer systems, and not elsewhere classified.

4. Computer and related services enable the provision of other services (e.g., banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g., web-hosting or application hosting) and the

content or core service that is being delivered electronically (e.g., banking). In such cases, the content or core service is not covered by CPC 84.

Section 3

Courier services

Article 89

Scope and definitions

1. This Section sets out the principles of the regulatory framework for all courier services liberalised in accordance with Chapters 2, 3 and 4 of this Title.

2. For the purpose of this Section and of Chapters 2 , 3 and 4 of this Title:

(a) Universal service means the permanent provision of a postal service of specified quality at all points in the territory of the EC Party and of the Signatory CARIFORUM States at affordable prices for all users.

(b) An "individual licence" means an authorisation, granted to an individual supplier by a regulatory authority, which is required before supplying a given service.

Article 90

Prevention of anti-competitive practices in the courier sector

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the EC Party or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together, have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

Article 91

Universal service

The EC Party or any Signatory CARIFORUM State has the right to define the kind of universal service obligation they wish to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service as defined by the EC Party and the Signatory CARIFORUM States.

Article 92

Individual licences

1. An individual licence may only be required for services which are within the scope of the universal service.

2. Where an individual licence is required, the following shall be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence, and

(b) the terms and conditions of individual licences.

3. The reasons for the denial of an individual licence shall be made known to the applicant upon request and an appeal procedure through an independent body will be established at the level of the EC Party and of the Signatory CARIFORUM States. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.

Article 93

Independence of the regulatory bodies

The regulatory bodies shall be legally separate from, and not accountable to, any supplier of courier services. The decisions of and the procedures used by the regulatory bodies shall be impartial with respect to all market participants.

Section 4

Telecommunications services

Article 94

Definitions and scope

1. For the purpose of this Title:

(a) 'telecommunications services' means all services consisting of the transmission and reception of electro-magnetic signals and do not cover the economic activity consisting of the provision of content which requires telecommunications for its transport.

(b) a 'regulatory authority' in the telecommunications sector means the body or bodies charged with the regulation of telecommunications mentioned in this Chapter.

(c) 'essential telecommunications facilities' mean facilities of a public telecommunications transport network and service that

(i) are exclusively or predominantly provided by a single or limited number of suppliers; and

(ii) cannot feasibly be economically or technically substituted in order to provide a service.

(d) a 'major supplier' in the telecommunications sector is a supplier which has the ability to materially affect the terms of participation (having regard to price and

supply) in the relevant market for telecommunications services as a result of control over essential facilities or the use of its position in the market.

(e) 'interconnection' means linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

(f) 'universal service' means the set of services of specified quality that must be made available to all users in the territory of the EC Party and of the Signatory CARIFORUM States regardless of their geographical location and at an affordable price; its scope and implementation are decided by the EC Party and by the Signatory CARIFORUM States.

2. This Section sets out the principles of the regulatory framework for the following telecommunications services, other than broadcasting, liberalised pursuant to Chapters 2, 3 and 4 of this Title: voice telephone services, packet-switched data transmission services, circuit-switched data transmission services, telex services, telegraph services, facsimile services, private leased circuit services and mobile and personal communications services and systems.

Article 95

Regulatory authority

1. Regulatory authorities for telecommunications services shall be legally distinct and functionally independent from any supplier of telecommunications services.

2. The regulatory authority shall be sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.

3. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

4. A supplier affected by the decision of a regulatory authority shall have a right to appeal against that decision to an appeal body that is independent of the parties involved. Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

Article 96

Authorisation to provide telecommunications services

1. Provision of services shall, as much as possible, be authorised following mere notification.

2. A licence can be required to address issues of attributions of numbers and frequencies. The terms and conditions for such licences shall be made publicly available.

3. Where a licence is required:

(a) all the licensing criteria and a reasonable period of time normally required to reach a decision concerning an application for a licence shall be made publicly available;

(b) the reasons for the denial of a licence shall be made known in writing to the applicant upon request;

(c) the applicant of a licence shall be able to seek recourse before an appeal body in case a licence is unduly denied;

(d) licence fees required by the EC Party or by the Signatory CARIFORUM States for granting a licence shall not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable licences.

Article 97

Competitive safeguards on major suppliers

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the EC Party or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices. These anti-competitive practices shall include in particular:

(a) engaging in anti-competitive cross-subsidisation;

(b) using information obtained from competitors with anti-competitive results, and;

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

Article 98

Interconnection

1. Any supplier authorised to provide telecommunications services shall have the right to negotiate interconnection with other providers of publicly available telecommunications networks and services. Interconnection should in principle be agreed on the basis of commercial negotiation between the companies concerned.

2. Regulatory authorities shall ensure that suppliers that acquire information from another undertaking during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. Interconnection with a major supplier shall be ensured at any technically feasible point in the network. Such interconnection shall be provided:

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and rates[22] that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided, and;

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. The procedures applicable for interconnection to a major supplier shall be made publicly available.

5. Major suppliers shall make publicly available either their interconnection agreements or their reference interconnection offers.

6. A service supplier requesting interconnection with a major supplier shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 95, to resolve disputes regarding appropriate terms, conditions and rates for interconnection.

Article 99

Scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Article 100

Universal service

1. The EC Party and the Signatory CARIFORUM States have the right to define the kind of universal service obligations they wish to maintain.

---

[22] Such rates are cost-oriented rates in the EC Party, and cost-based rates in Signatory CARIFORUM States.

2. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and not more burdensome than necessary for the kind of universal service defined by the EC Party and by the Signatory CARIFORUM States.

3. All suppliers should be eligible to ensure universal service. The designation shall be made through an efficient, transparent and non-discriminatory mechanism. Where necessary, the EC Party and the Signatory CARIFORUM States shall assess whether the provision of universal service represents an unfair burden on organisations(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit, if any, which accrues to an organisation that offers universal service, national regulatory authorities shall determine whether a mechanism is required to compensate the supplier(s) concerned or to share the net cost of universal service obligations.

4. The EC Party and the Signatory CARIFORUM States shall ensure that:

(a) directories of all subscribers are available to users in a form approved by the national regulatory authority, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year;

(b) organisations that provide the services referred to in paragraphs (a) apply the principle of non-discrimination to the treatment of information that has been provided to them by other organisations.

Article 101

Confidentiality of information

The EC Party and the Signatory CARIFORUM States shall ensure the confidentiality of telecommunications and related traffic data by means of a public telecommunication network and publicly available telecommunications services, without restricting trade in services.

Article 102

Disputes between suppliers

1. In the event of a dispute arising between suppliers of telecommunications networks or services in connection with rights and obligations that arise from this Chapter, the national regulatory authority concerned shall, at the request of either party to the dispute, issue a binding decision to resolve the dispute in the shortest possible timeframe.

2. When such a dispute concerns the cross-border provision of services, the national regulatory authorities concerned shall co-ordinate their efforts in order to bring about a resolution of the dispute.

Article 105

Effective and transparent regulation

4. In applying these principles, the EC Party and the Signatory CARIFORUM States shall:

The Parties and the Signatory CARIFORUM States shall progressively adjust, without prejudice to their obligations under the WTO Agreement, any State monopolies of a commercial nature or character, so as to ensure that, by the end of the fifth year following the entry into force of this Agreement, no discrimination regarding the conditions under which goods and services are sold or purchased exists between goods and services originating in the EC Party and those originating in the CARIFORUM States or between nationals of the Member States of the European Union and those of the CARIFORUM States, unless such discrimination is inherent in the existence of the monopoly in question.

   (b) as an alternative to (a), they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.

2. Where the infringer did not knowingly, or did not have reasonable grounds to know, that he, she or it was engaging in infringing activity, the EC Party and the Signatory CARIFORUM States may provide that the judicial authorities may order the recovery of profits or the payment of damages which may be pre-established.

(i) a design;
(ii) a geographical indication.

The EC Party and the Signatory CARIFORUM States agree to collaborate to expand the scope of this definition to cover goods infringing all intellectual property rights.

Article 167

Scope

The provisions of this Chapter apply only to those procuring entities listed in Annex 6 and in respect of procurements above the thresholds set out in that Annex.

The Parties and the Signatory CARIFORUM States shall ensure that the procurement of their procuring entities covered by this Chapter takes place in a transparent manner according to the provisions of this Chapter and the Annexes pertaining thereto, treating any eligible

supplier of either the Signatory CARIFORUM States or the EC Party equally in accordance with the principle of open and effective competition.

Article 167.1 - Supporting the creation of regional procurement markets

1. The Parties recognize the economic importance of establishing competitive regional procurement markets.

2. (a) With respect to any measure regarding covered procurement, each Signatory CARIFORUM State, including its procuring entities, shall endeavour not to treat a supplier established in any CARIFORUM State less favourably than another locally established supplier.

   (b) With respect to any measure regarding covered procurement, the EC Party and the Signatory CARIFORUM States, including their procuring entities:

   (i) shall endeavour not to discriminate against a supplier established in either Party on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of either Party;

   (ii) shall not treat a locally established supplier less favourably than another locally established supplier on the basis of degree of foreign affiliation to or ownership by operators or nationals of any Signatory CARIFORUM State or of the EC Party.

3. Subject to paragraph 4 below, each Party, including its procuring entities, shall with respect to any measure regarding covered procurement, accord to the goods and services of the other Party and to suppliers of the other Party offering the goods or services of any Party, treatment no less favourable than the treatment the Party, including its procuring entities, accords to domestic goods, services and suppliers.

4. The Parties shall not be required to provide the treatment envisaged in paragraph 3 unless a decision by the Joint CARIFORUM-EC Council to this effect is taken. That decision may specify to which procurements by each Party the treatment envisaged in paragraph 3 would apply, and under which conditions.

Article 167.2 - Valuation rules

Procuring entities shall not choose a valuation method, or divide a procurement, with the aim of avoiding the application of this Chapter. Valuation shall take into account all forms of remuneration, including any premiums, fees, commissions, and interest.

Article 167.3 - Exceptions

1. Nothing in this Chapter shall be construed as preventing a Signatory CARIFORUM State or the EC Party from imposing or enforcing measures relating to goods or services of persons with disabilities, philanthropic institutions, or prison labour.

2. This Chapter does not apply to:

(a) the acquisition or rental of land, existing buildings, or other immovable property or the rights thereon;

Article 168

Transparency of government procurement

1. Subject to Article 180(4), each Party or Signatory CARIFORUM State shall promptly publish any law, regulation, judicial decision and administrative ruling of

general application, and procedures, regarding procurement covered by this Chapter, as well as individual procurement opportunities, in the appropriate publications referred to in Annex 7 including officially designated electronic media. Each Party or Signatory CARIFORUM State shall promptly publish in the same manner all modifications to such measures, and shall within a reasonable time inform each other of any such modifications.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities provide for effective dissemination of the tendering opportunities generated by the relevant government processes, providing eligible suppliers with all the information required to take part in such procurement. Each Party shall set up and maintain an appropriate on-line facility to further the effective dissemination of tendering opportunities.

(a) Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders.

(b) Where entities do not offer free direct access to the entire tender documents and any supporting documents by electronic means, entities shall make promptly available the tender documentation at the request of any eligible supplier of the Parties.

3. For each procurement covered by this Chapter, procuring entities shall, save as otherwise provided, publish in advance a notice of intended procurement. Each notice shall be accessible during the entire time period established for tendering for the relevant procurement.

4. The information in each notice of intended procurement shall include at least the following:

(a) name, address, fax number, electronic address (where available) of the procuring entity and, if different, the address where all documents relating to the procurement may be obtained;

(b) the tendering procedure chosen and the form of the contract;

(c) a description of the intended procurement, as well as essential contract requirements to be fulfilled;

(d) any conditions that suppliers must fulfil to participate in the procurement;

(e) time-limits for submission of tenders and, where applicable, any time limits for the submission of requests for participation in the procurement.

(f) all criteria to be used for the award of the contract; and

(g) if possible, terms of payment and other terms.

5. Procuring entities are encouraged to publish as early as possible in each fiscal year a notice regarding their future procurement plans. The notice should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

6. Procuring entities operating in the utilities may use such a notice regarding their future procurement plans as a notice of intended procurement provided that it includes as much of the information set out in paragraph 4 as available and a statement that suppliers should express their interest in the procurement to the entity.

Article 169

Methods of procurement

1. Without prejudice to the method of government procurement used in respect of any specific procurement, procuring entities shall ensure that such methods are specified in the notice of intended procurement or tender documents.

2. The Parties or the Signatory CARIFORUM States shall ensure that their laws and regulations clearly prescribe the conditions under which procuring entities may utilise limited tendering procedures. Procuring entities shall not utilise such methods for the purpose of restricting participation in the procurement process in a non-transparent manner.

3. When conducting procurement by electronic means, a procuring entity shall:

(a) ensure that the procurement is conducted using generally available and interoperable information technology products and software, including those related to authentication and encryption of information; and

(b) maintain mechanisms that ensure the integrity of, and prevent inappropriate access to, requests for participation and tenders.

Article 170

Selective tendering

1. Whenever selective tendering procedures are employed, procuring entities shall:

(a) Publish a notice of intended procurement;

(b) In the notice of intended procurement invite eligible suppliers to submit a request for participation;

(c) Select the suppliers to participate in the selective tendering procedure in a fair manner; and

(d) Indicate the time limit for submitting requests for participation.

2. Procuring Entities shall recognize as qualified suppliers all suppliers which meet the conditions for participation in a particular procurement, unless the procuring entity states in the notice or, where publicly available, in the tender documentation, any limitation on the number of suppliers that will be permitted to tender and the objective criteria for such limitation.

3. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 1, procuring entities shall ensure that those documents are made available at the same time to all the qualified suppliers selected.

Article 171

Limited tendering

1. When using the limited tendering procedure, a procuring entity may choose not to apply Articles 168, 169 paragraphs 1 and 3, 170, 173 (1), 174, 175, 176 and 178.

2. Procuring entities may award their public contracts by limited tendering procedure, in the following cases:

(a) when no suitable tenders have been submitted in response to an open or selective tendering procedure, on condition that the requirements of the initial tender are not substantially modified;

(b) when, for technical or artistic reasons, or for reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;

(c) for reasons of extreme urgency brought about by events unforeseen by the procuring entity, the products or services could not be obtained in time by means of open or selective tendering procedures;

(d) for additional deliveries of goods or services by the original supplier where a change of supplier would compel the procuring entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services procured under the initial procurement and such separation would cause significant inconvenience or substantial duplication of costs to the procuring entity;

(e) when a procuring entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;

(f) when additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseen circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional services shall not exceed 50 per cent of the amount of the original contract;

(g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded following an open or selective procurement method, and for which the procuring entity has indicated in the notice of intended procurement that a limited procurement method might be used in awarding contracts for such new services;

(h) for products purchased on a commodity market;

(i) in the case of contracts awarded to the winner of a design contest; in the case of several successful candidates, successful candidates shall be invited to participate in the negotiations as specified in the notice or the intended procurement or the tender documents; and

(j) for purchases made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals such as arising from liquidation, receivership or bankruptcy and not for routine purchases from regular suppliers.

Article 172

Rules of origin

The EC Party and the Signatory CARIFORUM States for the purposes of this Chapter shall not apply rules of origin to goods or services imported from or supplied by the EC Party and the Signatory CARIFORUM States as the case may be that are different from the rules of origin applicable at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Signatory CARIFORUM State or the EC Party.

Article 173

Technical specifications

1. Consistent with the objectives of this Chapter, procuring entities shall ensure that technical specifications applied or intended for application to procurement covered by the Chapter are set out in the notices of intended procurement and/or tender documents.

2. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

3. In prescribing technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

   (a) specify the technical specifications, in terms of performance and functional requirements, rather than design or descriptive standards; and

   (b) base the technical specifications on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

4. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall, where appropriate, include words such as “or equivalent” in the technical specifications and consider tenders that demonstrably meet the required design or descriptive characteristics and are fit for the purposes intended.

5. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design or type, specific

origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as “as equivalent” are included in the tender documentation.

Article 174

Qualification of suppliers

1. For procurement covered by this Chapter, procuring entities shall ensure that any conditions and criteria for participating in a public contract award procedure are made known in advance in the notice of intended procurement or the tender documents. Any such conditions and criteria shall be limited to those which are essential to ensure that the potential supplier has the ability to execute the contract in question.

2. The Signatory CARIFORUM States and the EC Party shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by an entity of that Party or that the supplier has prior work experience in the relevant territory. This paragraph does not apply for procurements in respect of social impact surveys and studies.

3. The procuring entity shall base its assessment of the financial, commercial and technical abilities of a supplier on the conditions that it has specified in advance in notices or tender documentation.

4. Nothing in this Article shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations or conviction for serious crime.

5. Procuring entities may maintain a multi-use list provided that a notice inviting interested suppliers to apply for inclusion on the list is:

   (a) published annually; and

   (b) where published by electronic means, made available continuously in one of the appropriate media listed in Annex 7.

6. Procuring entities shall ensure that suppliers may apply for qualification at any time through the publication of a notice inviting suppliers to apply for inclusion on the list containing the following information:

   (a) a description of the goods and services, or categories thereof, for which the list may be used;

   (b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;

   (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list; and

(d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.

Procuring entities shall include in the list all qualified suppliers within a reasonably short time.

7. Where a non-qualified supplier submits a request for participation, and all required documents relating thereto, within the time-limit, a procuring entity, whether or not it uses a multi-use list, shall examine and accept the supplier's request for participation, unless, due to the complexity of the procurement, the entity is not able to complete the examination of the request. Procuring entities shall also ensure that a supplier having requested to be included in the list shall be informed of the decision in this regard in a timely fashion.

8. Procuring entities operating in the utilities may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement and may exclude requests for participation from suppliers not yet qualified in respect of the procurement on the grounds that the procuring entity has insufficient time to examine the application.

Article 175

Negotiations

1. The Signatory CARIFORUM States and the EC Party may provide for their procuring entities to conduct negotiations:

(a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or

(b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

(a) ensure that any elimination of suppliers in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

(b) when negotiations are concluded, provide a common deadline for the remaining suppliers to submit any new or revised tenders.

Article 176

Opening of tenders and awarding of contracts

1. All tenders solicited under open or selective procedures by procuring entities shall be received and opened under procedures and conditions guaranteeing the fairness and transparency of the process.

2. Unless a procuring entity decides that it is not in the public interest to award the contract, it shall award the contract to the supplier who has been determined, on the basis of the information presented, to be fully capable of undertaking the contract and whose tender is either the lowest tender or the tender which in terms of the specific evaluation criteria set forth in the notice or tender documentation is determined to be the most advantageous. Awards shall be made in accordance with the criteria and essential requirements specified in the notice of intended procurement or in the tender documentation.

Article 177

Information on contract award

1. The Parties and the CARIFORUM Signatory States shall ensure that their procuring entities provide for effective dissemination of the results of government procurement processes.

2. Procuring entities shall promptly inform suppliers of decisions regarding the award of the contract and, on request, in writing. Upon request, procuring entities shall inform any eliminated supplier of the reasons for the rejection of its tender and of the relative advantages of the successful supplier's tender.

3. Procuring entities may decide to withhold certain information on the contract award where release of such information would interfere with law enforcement or be otherwise contrary to the public interest, would prejudice the legitimate commercial interests of suppliers, or might prejudice fair competition between them.

4. Subject to Article 180(4), no later than seventy two (72) days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic media listed in Annex 7. Where only an electronic medium is used, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

(a) a description of the goods or services procured;

(b) the name and address of the procuring entity;

(c) the name and address of the successful supplier;

(d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;

(e) the date of the award; and

(f) the type of procurement method used, and in cases where a limited tendering procedure was used, a description of the circumstances justifying the use of such procedure.

Article 178

Time limits

1. In determining any time limits to be applied to procurement covered by this Chapter, procuring entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement and the normal time for transmitting tenders.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities shall take due account of publication delays when setting the final date for receipt of tenders or of request for participation or for qualifying for the supplier's list. Such time limits, including any extension, shall be common for all interested or participating suppliers.

3. Procuring entities shall clearly set out the time limits applicable to any specific procurement in the notice of intended procurement and/or the tender documents.

Article 179

Bid challenges

1. The Parties and the Signatory CARIFORUM States shall provide transparent, timely, impartial and effective procedures enabling suppliers to challenge domestic measures implementing this Chapter in the context of procurements in which they have, or have had, a legitimate commercial interest. To this effect, each Party or Signatory CARIFORUM State shall establish, identify or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of covered procurement.

2. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge as from the time when the basis of the challenge become known or reasonably should have become known to the supplier. This paragraph does not preclude Parties or Signatory CARIFORUM States from requiring complainants to lodge their complaints within a reasonable period of time provided that duration of that period is made known in advance.

3. Procuring entities shall ensure their ability to respond to requests for a review by maintaining a reasonable record of each procurement covered under this Chapter.

4. Challenge procedures shall provide for effective rapid interim measures to correct breaches of the domestic measures implementing this Chapter.

Article 180

Implementation period

1. In order for the Signatory CARIFORUM States to bring their measures into conformity with any specific procedural obligation of this Chapter, they shall have an implementation period of two years from the entry into force of this Agreement.

2. Should a review by the CARIFORUM-EC Trade and Development Committee at the end of the implementation period reveal that one or several Signatory CARIFORUM States need one more year to bring their measures into conformity with the obligations of this Chapter, the CARIFORUM-EC Trade and Development Committee may extend the implementation period referred to in paragraph 1 by one more year for the individual Signatory CARIFORUM States concerned.

3. By way of derogation from paragraphs 1 and 2, Antigua and Barbuda, Belize, The Commonwealth of Dominica, Grenada, The Republic of Haiti, Saint Christopher and Nevis, Saint Lucia and Saint Vincent and the Grenadines shall benefit from an implementation period of five (5) years.

4. The requirements stipulated in Article 168(1) and the last sentence of paragraph 2, in Article 170(1)(a) and in Article 177(4) will only come into effect for the Signatory CARIFORUM States once the requisite capacity to implement them has been developed, but not later than 5 years after the entry into force of this Agreement.

Article 181

Review clause

The CARIFORUM-EC Trade and Development Committee will review the operation of this Chapter every three years, including with regard to any modifications of coverage, and may make appropriate recommendations to the Joint CARIFORUM-EC Council to that effect, as appropriate. In carrying out this task, the CARIFORUM-EC Trade and Development Committee may, without prejudice to Article 182, also make appropriate recommendations regarding the Parties' further cooperation in the procurement field and the implementation of this Chapter.

Article 182

Cooperation

1. The Parties recognize the importance of cooperating in order to facilitate implementation of commitments and to achieve the objectives of this Chapter.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support and establishing appropriate contact points, in the following areas:

   (a) Exchange of experience and information about best practices and regulatory frameworks;

   (b) Establishment and maintenance of appropriate systems and mechanisms to facilitate compliance with the obligations of this Chapter; and

(c) Creation of an on-line facility at the regional level for the effective dissemination of information on tendering opportunities, so as to facilitate the awareness of all companies about procurement processes.

Chapter 4

ENVIRONMENT

Article 183

Objectives and sustainable development context

1. The Parties reaffirm that the principles of sustainable management of natural resources and the environment are to be applied and integrated at every level of their partnership, as part of their overriding commitment to sustainable development as set out in Articles 1 and 2 of the Cotonou Agreement.

2. The Parties recall that Article 32 of the Cotonou Agreement includes environment and natural resources as thematic and cross-cutting issues, and that the fundamental principles of ownership, participation, dialogue and differentiation set out in Article 2 of the Cotonou Agreement are therefore particularly relevant.

3. The Parties and the Signatory CARIFORUM States are resolved to conserve, protect and improve the environment, including through multilateral and regional environmental agreements to which they are parties.

4. The Parties reaffirm their commitment to promoting the development of international trade in such a way as to ensure sustainable and sound management of the environment, in accordance with their undertakings in this area including the international conventions to which they are party and with due regard to their respective level of development.

5. The Parties and the Signatory CARIFORUM States are resolved to make efforts to facilitate trade in goods and services which the Parties consider to be beneficial to the environment. Such products may include environmental technologies, renewable- and energy-efficient products and services and eco-labelled goods.

Article 184

Levels of protection and right to regulate

1. Recognizing the right of the Parties and the Signatory CARIFORUM States to regulate in order to achieve their own level of domestic environmental and public health protection and their own sustainable development priorities, and to adopt or modify accordingly their environmental laws and policies, each Party and Signatory CARIFORUM State shall seek to ensure that its own environmental and public health laws and policies provide for and encourage high levels of environmental and public health protection and shall strive to continue to improve those laws and policies.

2. The Parties agree that the special needs and requirements of CARIFORUM States shall be taken into account in the design and implementation of measures aimed at protecting environment and public health that affect trade between the Parties.

3. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade between them, nothing in this Agreement shall be construed to prevent any Party and the Signatory CARIFORUM States from adopting or maintaining measures necessary to protect human, animal or plant life or health, related to the conservation of natural resources or protection of the environment.

Article 185

Regional integration and use of international environmental standards

In the light of the environmental challenges facing their respective regions, and in order to promote the development of international trade in such a way as to ensure sustainable and sound management of the environment, the Parties recognise the importance of establishing effective strategies and measures at the regional level. The Parties agree that in the absence of relevant environmental standards in national or regional legislation, they shall seek to adopt and implement the relevant international standards, guidelines or recommendations, where practical and appropriate.

Article 186

Scientific information

The Parties recognise the importance, when preparing and implementing measures aimed at protecting the environment and public health that affect trade between the Parties, of taking account of scientific and technical information, the precautionary principle, and relevant international standards, guidelines or recommendations.

Article 187

Transparency

The Parties and the Signatory CARIFORUM States commit to developing, introducing and implementing any measures aimed at protecting the environment and public health that affect trade between the Parties in a transparent manner, with due notice and public and mutual consultation and with appropriate and timely communication to and consultation of non-state actors including the private sector. The Parties agree that satisfying the provisions on transparency included in the Chapter 6 and 7 of Title I of this Agreement shall be deemed to satisfy the provisions of this Article as well.

Article 188

Upholding levels of protection

1. Subject to Article 184(1), the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:

(a) lowering the level of protection provided by domestic environmental and public health legislation;

(b) derogating from, or failing to apply such legislation.

2. The Parties and the Signatory CARIFORUM States commit to not adopting or applying regional or national trade or investment-related legislation or other related administrative measures as the case may be in a way which has the effect of frustrating measures intended to benefit, protect or conserve the environment or natural resources or to protect public health.

Article 189

Consultation and monitoring process

1. The Parties recognise the importance of monitoring and assessing the impact of implementation of the Agreement on sustainable development through their respective participative processes and institutions, as well as those set up under this Agreement.

2. The Parties may consult each other and the CARIFORUM-EC Consultative Committee on environmental issues covered by Articles 183 to 188. Members of the CARIFORUM-EC Consultative Committee may submit oral or written recommendations to the Parties for disseminating and sharing best practice relating to issues covered by this Chapter.

3. On any issue covered by Articles 183 to 188 the Parties may agree to seek advice from the relevant international bodies on best practice, the use of effective policy tools for addressing trade-related environmental challenges, and the identification of any obstacles that may prevent the effective implementation of environmental standards under relevant Multilateral Environment Agreements.

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 183 to 188 of this Chapter. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the relevant international bodies. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three month of its composition. The report shall be made available to the CARIFORUM-EC Consultative Committee.

Article 190

(b) Promotion and facilitation of private and public voluntary and market-based schemes including relevant labelling and accreditation schemes;

(c) Technical assistance and capacity building, in particular to the public sector, in the implementation and enforcement of multilateral environmental agreements, including with respect to trade-related aspects;

(d) Facilitation of trade between the Parties in natural resources, including timber and wood products, from legal and sustainable sources;

Chapter 5

SOCIAL ASPECTS

Article 191

Objectives and multilateral commitments

1. The Parties reaffirm their commitment to the internationally recognised core labour standards, as defined by the relevant International Labour Organisation (ILO) Conventions, and in particular the freedom of association and the right to collective bargaining, the abolition of forced labour, the elimination of the worst forms of child labour and non-discrimination in respect to employment. The Parties also reaffirm their obligations as members of the ILO and their commitments under the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998).

2. The Parties reaffirm their commitment to the 2006 Ministerial declaration by the UN Economic and Social Council on Full Employment and Decent Work, promoting the

development of international trade in a way that is conducive to full and productive employment and decent work for all, including men, women and young people.

3. The Parties recognise the beneficial role that core labour standards and decent work can have on economic efficiency, innovation and productivity, and they highlight the value of greater policy coherence between trade policies, on the one hand, and employment and social policies on the other.

4. The Parties agree that labour standards should not be used for protectionist trade purposes.

5. The Parties recognise the benefits of commerce in fair and ethical trade products and the importance of facilitating such commerce between them.

Article 192

Levels of protection and right to regulate

Article 193

Upholding levels of protection

Subject to Article 192, the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 191 to 194 of this Chapter. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the ILO. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three month of its composition. The report shall be made available to the CARIFORUM-EC Consultative Committee.

Chapter 6

PROTECTION OF PERSONAL DATA

Article 197

General objective

1. The Parties and the Signatory CARIFORUM States, recognizing:

(a) their common interest in protecting fundamental rights and freedoms of natural persons, and in particular their right to privacy, with respect to the processing of personal data,

(b) the importance of maintaining effective data protection regimes as a means of protecting the interests of consumers, stimulating investor confidence and of facilitating transborder flows of personal data,

(c) that the collection and processing of personal data should be accomplished in a transparent and fair manner, with due respect accorded to the data subject,

agree to establish appropriate legal and regulatory regimes, as well as appropriate administrative capacity to implement them, including independent supervisory authorities, in order to ensure an adequate level of protection of individuals with regard to the processing of personal data, in line with existing high international standards[28].

2. The Signatory CARIFORUM States shall endeavour to implement the provisions of paragraph 1 as soon as possible and no later than seven years after the entry into force of this Agreement.

---

[28] Such standards are those included in the following international instruments.

(i) Guidelines for the regulation of computerised personal data files, modified by the General Assembly of the United Nations on 20 November 1990;

(ii) Recommendation of the OECD Council concerning guidelines governing the protection of privacy and trans-border flows of personal data of 23 September 1980.

Article 198

Definitions

For the purposes of this Chapter:

(a) “Personal data” means any information relating to an identified or identifiable individual (data subject);

(b) “Processing of personal data” means any operation or set of operations which is performed upon personal data, such as collection, recording, organisation, storage, alteration, retrieval, consultation, use, disclosure, combination, blocking, erasure or destruction, as well as transfers of personal data across national borders;

(c) "Data Controller" means the natural or legal person, authority or any other body which determines the purposes and means of the processing of personal data.

Article 199

Principles and general rules

The Parties agree that the legal and regulatory regimes and administrative capacity to be established shall, at a minimum, include the following content principles and enforcement mechanisms:

(a) Content principles

(i) the purpose limitation principle - data should be processed for a specific purpose and subsequently used or further communicated only insofar as this is not incompatible with the purpose of the transfer. The only exemptions to this rule would be those provided by legislation and necessary in a democratic society for important public interests;

(ii) the data quality and proportionality principle - data should be accurate and, where necessary, kept up to date. The data should be adequate, relevant and not excessive in relation to the purposes for which they are transferred or further processed;

(iii) the transparency principle - individuals should be provided with information as to the purpose of the processing and the identity of the data controller in the third country, and other information insofar as this is necessary to ensure fairness. The only exemptions permitted should be those provided by legislation and necessary in a democratic society for important public interests;

(iv) the security principle - technical and organisational security measures should be taken by the data controller that are appropriate to the risks presented by the processing. Any person acting under the authority of the data controller, including a processor, must not process data except on instructions from the controller;

(v) the rights of access, rectification and opposition - the data subject should have a right to obtain a copy of all data relating to him/her that are processed, and a right to rectification of those data where they are shown to be inaccurate. In certain

situations he/she should also be able to object to the processing of the data relating to him/her. The only exemptions to these rights should be those provided by legislation and necessary in a democratic society for important public interests;

(vi) restrictions on onward transfers – as a matter of principle, further transfers of the personal data by the recipient of the original data transfer should be permitted only where the second recipient (i.e. the recipient of the onward transfer) is also subject to rules affording an adequate level of protection;

(vii) sensitive data - where special categories of data are involved, revealing racial or ethnic origin, political opinions, religious or philosophical beliefs or trade-union membership, data concerning health or sex life, and data relating to offences, criminal convictions or security measures, data may not be processed unless domestic law provides additional safeguards.

(b) Enforcement mechanisms

Appropriate mechanisms shall be in place to ensure that the following objectives are achieved:

(i) to ensure a good level of compliance with the rules, including a high degree of awareness among data controllers of their obligations, and among data subjects of their rights and the means of exercising them; the existence of effective and dissuasive sanctions; and systems of direct verification by authorities, auditors, or independent data protection officials;

(ii) to provide support and help to individual data subjects in the exercise of their rights, who must be able to enforce their rights rapidly and effectively, and without prohibitive cost, including through appropriate institutional mechanisms allowing independent investigation of complaints;

(iii) to provide appropriate redress to the injured party where rules are not complied with allowing compensation to be paid and sanctions imposed where appropriate in accordance with applicable domestic rules.

Article 200

Coherence with international commitments

1. The EC Party and the Signatory CARIFORUM States shall inform each other through the CARIFORUM-EC Trade and Development Committee about international commitments or arrangements with third countries they may undertake, or about any obligation they may be subject to, which may be relevant for the implementation of the present Chapter, and in particular about any arrangement providing for the processing of personal data, such as collection, storage, access by or transfers to third parties of personal data.

2. In this regard at the request of the EC Party or the Signatory CARIFORUM States, the EC Party and the Signatory CARIFORUM States shall enter into consultations to address any concerns which may come to light.

Article 201

Cooperation

1. The Parties acknowledge the importance of cooperation in order to facilitate the development of appropriate legislative, judicial and institutional frameworks as well as an adequate level of protection of personal data consistent with the objectives and principles contained in this Chapter.

2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support, in the following areas:

   (a) exchange of information and expertise;

   (b) assistance in drafting legislation, guidelines and manuals;

   (c) provision of training for key personnel;

   (d) assistance with the establishment and functioning of relevant institutional frameworks;

PART III

DISPUTE AVOIDANCE AND SETTLEMENT

Article 202

Objective

The objective of this Part is to avoid and settle any dispute between the Parties with a view to arriving at a mutually agreed solution.

Article 203

Scope

1. This Part shall apply to any dispute concerning the interpretation and application of this Agreement.

2. Notwithstanding paragraph 1, the procedure set out in Article 98 of the Cotonou Agreement shall be applicable in the event of a dispute concerning development finance cooperation as provided for by the Cotonou Agreement.

Chapter 1

CONSULTATIONS AND MEDIATION

Article 204

Consultations

1. The Parties shall endeavour to resolve any dispute referred to in Article 203 by entering into consultations in good faith with the aim of reaching an agreed solution.

2. A Party shall seek consultations by means of a written request to the other Party, copied to the CARIFORUM-EC Trade and Development Committee, identifying the measure at issue and the provisions of the Agreement that it considers the measure not to be in conformity with.

3. Consultations shall be held within forty (40) days of the date of the submission of the request. The consultations shall be deemed concluded within sixty (60) days of the date of the submission of the request, unless both Parties agree to continue consultations. All information disclosed during the consultations shall remain confidential.

4. Consultations on matters of urgency, including those regarding perishable or seasonal goods shall be held within fifteen (15) days of the date of the submission of the request, and shall be deemed concluded within thirty (30) days of the date of the submission of the request.

5. If consultations are not held within the timeframes laid down in paragraph 3 or in paragraph 4 respectively, or if consultations have been concluded and no agreement has been reached on a mutually agreed solution, the complaining Party may request the establishment of an arbitration panel in accordance with Article 206.

6. A Party shall not bring a dispute under this Part concerning the interpretation and application of Chapters 4 and 5 of Title IV unless the procedures of Article 189 (3), (4) and (5) and Article 195 (3), (4) and (5), respectively have been invoked and the matter has not been satisfactorily resolved within nine (9) months of the initiation of the consultations. Consultations pursuant to those provisions shall replace those which would have been required under this Article.

Article 205

Mediation

1. If consultations fail to produce a mutually agreed solution, the Parties may, by agreement, seek recourse to a mediator. Unless the Parties agree otherwise, the terms of reference for the mediation shall be the matter referred to in the request for consultations.

2. Unless the Parties agree on a mediator within fifteen (15) days of the date of the agreement to request mediation, the Chairperson of the CARIFORUM-EC Trade and Development Committee, or his or her delegate, shall select by lot a mediator from the pool of individuals who are on the list referred to in Article 221 and are not nationals of either Party. The selection shall be made within twenty five (25) days of the date of the submission of agreement to request mediation and in the presence of a representative of each Party. The mediator will convene a meeting with the Parties no later than thirty (30) days after being selected. The mediator shall receive the submissions of each Party no later than fifteen (15) days before the meeting and notify an opinion no later than forty five (45) days after having been selected.

3. The mediator's opinion may include a recommendation on how to resolve the dispute consistent with the provisions of this Agreement. The mediator's opinion is non-binding.

4. The Parties may agree to amend the time limits referred to in paragraph 2. The mediator may also decide to amend these time limits upon request of any of the Parties or on his own initiative, given the particular difficulties experienced by the Party concerned or the complexities of the case.

5. The proceedings involving mediation, in particular all information disclosed and positions taken by the Parties during these proceedings shall remain confidential.

Chapter 2

DISPUTE SETTLEMENT PROCEDURES

Section 1 – Arbitration procedure

Article 206

Initiation of the arbitration procedure

1. Where the Parties have failed to resolve the dispute by recourse to consultations as provided for in Article 204, or by recourse to mediation as provided for in Article 205, the complaining Party may request the establishment of an arbitration panel.

2. The request for the establishment of an arbitration panel shall be made in writing to the Party complained against and the CARIFORUM-EC Trade and Development Committee. The complaining Party shall identify in its request the specific measures at issue, and it shall explain how such measures constitute a breach of the provisions of this Agreement.

Article 207

Establishment of the arbitration panel

1. An arbitration panel shall be composed of three arbitrators.

2. Within ten (10) days of the date of the submission of the request for the establishment of an arbitration panel to the CARIFORUM-EC Trade and Development Committee, the Parties shall consult in order to reach an agreement on the composition of the arbitration panel.

3. In the event that the Parties are unable to agree on its composition within the time frame laid down in paragraph 2, either Party may request the Chairperson of the CARIFORUM-EC Trade and Development Committee, or her or his delegate, to select all three members by lot from the list established under Article 221, one among the individuals proposed by the complaining Party, one among the individuals proposed by the Party complained against and one among the individuals selected by the Parties to act as Chairperson. Where the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be selected by the same procedure.

4. In the event of a dispute concerning the interpretation and application of Chapters 4 and 5 of Title IV the panel shall comprise at least two members with specific expertise on the matters covered by that Chapter drawn from a list of fifteen (15) persons established by the CARIFORUM-EC Trade and Development Committee as provided for under Article 221.

5. The Chairperson of the CARIFORUM-EC Trade and Development Committee, or her or his delegate, shall select the arbitrators within five (5) days of the request referred to in paragraph 3 by either Party and in the presence of a representative of each Party.

6. The date of establishment of the arbitration panel shall be the date on which the three arbitrators are selected.

Article 208

Interim panel report

The arbitration panel shall notify to the Parties an interim report containing both the descriptive section and its findings and conclusions, as a general rule not later than one hundred and twenty (120) days from the date of establishment of the arbitration panel. Any Party may submit written comments to the arbitration panel on precise aspects of its interim report within fifteen (15) days of the notification of the report.

Article 209

Arbitration panel ruling

1. The arbitration panel shall notify its ruling to the Parties and to the CARIFORUM-EC Trade and Development Committee within one hundred and fifty(150) days from the date of the establishment of the arbitration panel. Where it considers that this deadline cannot be met, the Chairperson of the arbitration panel must notify the Parties and the CARIFORUM-EC Trade and Development Committee in writing, stating the reasons for the delay and the date on which the panel plans to conclude its

work. Under no circumstances should the ruling be notified later than one hundred and eighty (180) days from the date of the establishment of the arbitration panel.

2. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall make every effort to notify its ruling within seventy five (75) days from the date its establishment. Under no circumstance should it take longer than ninety (90) days from its establishment. The arbitration panel may give a preliminary ruling within ten (10) days of its establishment on whether it deems the case to be urgent.

3. Either party may request the arbitration panel to provide a recommendation as to how the Party complained against could bring itself into compliance. In the event of a dispute concerning the interpretation and application of Chapters 4 or 5 of Title IV the arbitration panel shall include a recommendation on how to ensure compliance with the relevant provisions of these Chapters.

Section 2 – Compliance

Article 210

Compliance with the arbitration panel ruling

Each Party shall take any measure necessary to comply with the arbitration panel ruling, and the Parties will endeavour to agree on the period of time to comply with the ruling.

Article 211

The reasonable period of time for compliance

1. No later than thirty (30) days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party and the CARIFORUM-EC Trade and Development Committee of the time it will require for compliance (reasonable period of time).

2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within twenty (20) days of the notification made under paragraph 1, request in writing the arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party and to the CARIFORUM-EC Trade and Development Committee. The arbitration panel shall notify its ruling to the Parties and to the CARIFORUM-EC Trade and Development Committee within thirty (30) days from the date of the submission of the request.

3 The arbitration panel shall, in determining the length of the reasonable period of time, take into consideration the length of time that it will normally take the defending Party to adopt comparable legislative or administrative measures to those identified by the defending Party as being necessary to ensure compliance. The arbitration panel shall also take into consideration demonstrable capacity constraints which may affect the defending Party's adoption of the necessary measures.

4. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be forty five (45) days from the date of the submission of the request referred to in paragraph 2.

5. The reasonable period of time may be extended by agreement of the Parties.

Article 212

Review of any measure taken to comply with the arbitration panel ruling

1. The Party complained against shall notify the other Party and the CARIFORUM-EC Trade and Development Committee before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.

2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1, with the provisions of this Agreement, the complaining Party may request in writing the arbitration panel to rule on the matter. Such request shall identify the specific measure at issue and it shall explain how such measure is incompatible with the provisions of this Agreement. The arbitration panel shall notify its ruling within ninety (90) days of the date of the submission of the request. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall notify its ruling within forty five (45) days of the date of the submission of the request.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be one hundred and five (105) days from the date of the submission of the request referred to in paragraph 2.

Article 213

Temporary remedies in case of non-compliance

1. If the Party concerned fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 212(1) is not compatible with that Party's obligations under the provisions of this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for compensation. Nothing in the Agreement shall require the Party complained against to offer financial compensation.

2. If no agreement on compensation is reached within thirty (30) days of the end of the reasonable period of time or of the arbitration panel's ruling under Article 212 that a measure taken to comply is not compatible with the provisions of this Agreement, the complaining Party shall be entitled, upon notification to the other Party, to adopt appropriate measures. In adopting such measures the complaining Party shall endeavour to select measures that least affect the attainment of the objectives of this Agreement and shall take into consideration their impact on the economy of the Party complained against and on the individual CARIFORUM States. In addition, where

the EC Party has obtained the right to adopt such measures, it shall select measures which are specifically aimed at bringing into compliance the CARIFORUM State or States whose measures were found to be in breach of this Agreement. The other CARIFORUM States shall facilitate the adoption of measures to comply with the arbitration panel ruling by the CARIFORUM State or States found to be in breach. In cases involving a dispute under Chapter 4 and 5 of Title IV, appropriate measures shall not include the suspension of trade concessions under this Agreement. The complaining Party may adopt the appropriate measures ten (10) days after the date of the notification.

3. The EC Party shall exercise due restraint in asking for compensation or adopting appropriate measures pursuant to paragraphs 1 or 2 of this Article.

4. Compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

Article 214

Review of any measure taken to comply after the adoption of appropriate measures

1. The Party complained against shall notify the other Party and the CARIFORUM-EC Trade and Development Committee of any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to application of appropriate measures by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within thirty (30) days of the date of the submission of the notification, the complaining Party shall request in writing the arbitration panel to rule on the matter. Such request shall be notified to the other Party and to the CARIFORUM-EC Trade and Development Committee. The arbitration panel ruling shall be notified to the Parties and to the CARIFORUM-EC Trade and Development Committee within forty five (45) days of the date of the submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the provisions of this Agreement, the arbitration panel will determine whether the complaining Party can continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 207 shall apply. The period for notifying the ruling shall be sixty (60) days from the date of the submission of the request referred to in paragraph 2.

Section 3

Common provisions

Article 215

Mutually agreed solution

The Parties may reach an agreed solution to a dispute under this Part at any time. They shall notify the CARIFORUM-EC Trade and Development Committee of any such solution. Upon adoption of the mutually agreed solution, the procedure shall be terminated.

Article 216

Rules of procedure

1. Dispute settlement procedures under Chapter 2 of this Part shall be governed by the Rules of Procedure which shall be adopted by the Joint CARIFORUM-EC Council within three (3) months of the provisional application of this Agreement.

2. Any meeting of the arbitration panel shall be open to the public in accordance with the Rules of Procedure, unless the arbitration panel decides otherwise on its own motion or at the request of the Parties.

Article 217

Information and technical advice

At the request of a Party, or upon its own initiative, the arbitration panel may obtain information from any source, including the Parties involved in the dispute, it deems appropriate for the arbitration panel proceeding. The arbitration panel shall also have the right to seek the relevant opinion of experts as it deems appropriate. Interested parties are authorised to submit amicus curiae briefs to the arbitration panels in accordance with the Rules of Procedure. Any information obtained in this manner must be disclosed to each of the Parties and submitted for their comments.

Article 218

Languages of the submissions

1. The written and oral submissions of the Parties shall be made in any official languages of the Parties.

2. The Parties shall endeavour to agree on a common working language for any specific proceedings under this Part. If the Parties are unable to agree on a common working language, each Party shall arrange for and bear the costs of the translation of its written submissions and interpretation at the hearings into the language chosen by

the Party complained against, unless such language is an official language of that Party.[29]

Article 219

Rules of interpretation

Arbitration panels shall interpret the provisions of this Agreement in accordance with customary rules of interpretation of public international law, including those set out in the Vienna Convention on the Law of Treaties. The rulings of the arbitration panel cannot add to or diminish the rights and obligations provided in the provisions of this Agreement.

Article 220

Arbitration panel rulings

1. The arbitration panel shall make every effort to take any decision by consensus. Where, nevertheless, a decision cannot be arrived at by consensus, the matter at issue shall be decided by majority vote. However, in no case dissenting opinions of arbitrators shall be published.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the reasoning behind any findings and conclusions that it makes. The CARIFORUM-EC Trade and Development Committee shall make the arbitration panel rulings publicly available unless it decides not to do so.

Article 221

List of arbitrators

1. The CARIFORUM-EC Trade and Development Committee shall, no later than three months after the provisional application of this Agreement, establish a list of fifteen (15) individuals who are willing and able to serve as arbitrators. Each of the Parties shall select five individuals to serve as arbitrators. The two Parties shall also agree on five individuals that are not nationals of either Party and who shall act as Chairperson to the arbitration panel. The CARIFORUM-EC Trade and Development Committee will ensure that the list is always maintained at this level.

2. Arbitrators shall have specialised knowledge of or experience in law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the government of any of the Parties, and shall comply with the Code of Conduct annexed to the Rules of Procedures.

3. The CARIFORUM-EC Trade and Development Committee may establish an additional list of fifteen (15) individuals having a sectoral expertise in specific

When recourse is made to the selection procedure of Article 207, the Chairperson of the CARIFORUM-EC Trade and Development Committee may use such a sectoral list upon agreement of both Parties. The CARIFORUM-EC Trade and Development Committee shall establish an additional list of fifteen (15) individuals having an expertise in the specific matters covered by Chapters 4 and 5 of Title IV.

Article 222

Relation with WTO obligations

1. Arbitration bodies set up under this Agreement shall not adjudicate disputes on each Party or Signatory CARIFORUM States' rights and obligations under the Agreement establishing the WTO.

2. Recourse to the dispute settlement provisions of this Agreement shall be without prejudice to any action in the WTO framework, including dispute settlement action. However, where a Party or Signatory CARIFORUM State has, with regard to a particular measure, instituted a dispute settlement proceeding, either under Article 206(1) of this Part or under the WTO Agreement, it may not institute a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. For purposes of this paragraph, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party or Signatory CARIFORUM States' request for the establishment of a panel under Article 206 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO.

3. Nothing in this Agreement shall preclude a Party or Signatory CARIFORUM State from implementing the suspension of obligations authorised by the Dispute Settlement Body of the WTO. Nothing in the WTO Agreement shall preclude Parties from suspending benefits under this Agreement.

Article 223

Time lines

1. All time limits laid down in this Part, including the limits for the arbitration panels to notify their rulings, shall be counted in calendar days from the day following the act or fact to which they refer.

2. Any time limit referred to in this Part may be extended by mutual agreement of the Parties.

PART IV

GENERAL EXCEPTIONS

Article 224

General exception clause

1. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on trade in goods, services or establishment, nothing in this Agreement shall be construed to prevent the adoption or enforcement by the EC Party, the CARIFORUM States or a Signatory CARIFORUM State of measures which:

For the purpose of Article 2(1), working and processing carried out in the CARIFORUM States, in the OCTs or in the other ACP States shall be considered as having been carried out in the EC Party, when the materials undergo subsequent working or processing in the EC Party going beyond that referred to in Article 8.

Article 4

Cumulation in the CARIFORUM States

1. For the purpose of Article 2(2), materials originating in the EC Party, in the OCTs or in the other ACP States shall be considered as materials originating in the CARIFORUM States when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond that referred to in Article 8.

2. For the purpose of Article 2(2), working and processing carried out in the EC Party, in the OCTs or in the other ACP States shall be considered as having been carried out in the CARIFORUM States, when the materials undergo subsequent working or processing in the CARIFORUM States going beyond that referred to in Article 8.

5. This Article shall not apply to products of Annex XII originating in South Africa. The cumulation provided for in this Article shall apply after 31 December 2009 for the products originating in South Africa listed in Annex XIII.

Article 5

1. At the request of the CARIFORUM States, materials originating in a neighbouring developing country listed in Annex VIII shall be considered as materials originating in a CARIFORUM State when incorporated into a product obtained there.

2. The requests shall be addressed to the Special Committee on Customs Cooperation and Trade Facilitation in accordance with Article 42.

3. It shall not be necessary that such materials have undergone sufficient working or processing, provided that:

(a) the working or processing carried out in the CARIFORUM State exceeds the operations listed in Article 8.

(b) the CARIFORUM States, the EC Party and the neighbouring developing countries concerned have concluded an agreement on adequate administrative cooperation procedures which will ensure correct implementation of this paragraph.

5. For the purpose of determining whether the products originate in the neighbouring developing country as defined in Annex VIII, the provisions of this Protocol shall apply.

adequate opportunities for developing the fishing capacity of the requesting CARIFORUM State and in particular as conferring on such CARIFORUM State the nautical and commercial responsibility for the chartered or leased vessels.

Article 7

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the List in Annex II are fulfilled.

2. The conditions referred to in paragraph 1 above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in the List is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in Annex II should not be used in the manufacture of a given product may nevertheless be used, provided that:

   (a) their total value does not exceed 15 per cent of the ex-works price of the product;

   (b) any of the percentages given in the List for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

5. Paragraphs 1 to 4 shall apply except as provided in Article 8.

(o) a combination of two or more operations specified in (a) to (n);

Article 9

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.

Accordingly, it follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.

[1] This is understood to mean the reduction of the size of the sugar particles as a result of grinding or milling.

2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 10

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 11

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Article 12

Neutral elements

In order to determine whether a product is originating, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

2. Where originating goods exported from the CARIFORUM States or from the EC Party to another country are returned, except insofar as provided for in Article 3, 4 and 5, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

(a) the returned goods are the same goods as those exported; and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

Article 14

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products which satisfy the requirements of this Protocol and which are transported directly between the territory of the CARIFORUM States and the EC Party without entering any other territory. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

   Originating products may be transported by pipeline across territory other than that of a CARIFORUM State, of the EC Party or of an OCT.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

   (a) a single transport document covering the passage from the exporting country through the country of transit; or

   (c) failing these, any substantiating documents.

Article 15

Exhibitions

1. Originating products, sent from a CARIFORUM State or from the EC Party for exhibition in a country or territory other than those referred to in Articles 3, 4 and 5 and sold after the exhibition for importation into the EC Party or a CARIFORUM State shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

(a) an exporter has consigned these products from a CARIFORUM State or the EC Party to the country in which the exhibition is held and has exhibited them there;

(b) the products have been sold or otherwise disposed of by that exporter to a person in a CARIFORUM State or in the EC Party;

The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

   (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the CARIFORUM States or in the EC Party and fulfil the other requirements of this Protocol.

3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.

6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 22

1. The customs authorities of the exporting country may authorize any exporter who makes frequent shipments of products under the trade cooperation provisions of the Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorization must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorization number which shall appear on the invoice declaration.

4. The customs authorities shall monitor the use of the authorization by the approved exporter.

5. The customs authorities may withdraw the authorization at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorization.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. Proof of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proof of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or heading 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this

declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Information procedure for cumulation purposes

3. A separate supplier's declaration shall be made up by the supplier for each consignment of material on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified.

4. The supplier's declaration may be made out on a pre-printed form.

5. The suppliers' declarations shall bear the original signature of the supplier in manuscript. However, where the invoice and the supplier's declaration are established using electronic data-processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the customs authorities in the State where the suppliers' declarations are established. The said customs authorities may lay down conditions for the implementation of this paragraph.

6. The supplier's declarations shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR 1.

7. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

8. Suppliers' declarations made and information certificates issued before the date of application of this Protocol in accordance with Article 26 of Protocol 1 to the Cotonou Agreement shall remain valid.

Article 28

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Administrative conditions for products to benefit from the Agreement

Article 34

Verification of proof of origin

1. Subsequent verifications of proof of origin shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in a CARIFORUM State, in the EC Party or in one of the other countries referred to in Article 3, 4 and 5 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. Where the verification procedure or any other available information appears to indicate that the provisions of this Protocol are being contravened, the exporting country on its own initiative or at the request of the importing country shall carry out appropriate enquires or arrange for such enquiries to be carried out with due urgency to identify and prevent such

contraventions and for this purpose the exporting country concerned may invite the participation of the importing country in these enquiries.

Article 35

Verification of suppliers' declarations

1. Verification of suppliers' declarations shall be carried out at random or based on risk analysis or whenever the customs authorities of the importing State have reasonable doubt as to the authenticity of the document or the accuracy or completeness of the information concerning the true origin of the materials in question.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI to this Protocol. Alternatively, the customs authorities to which a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made.

   A copy of the information certificate shall be preserved by the office which has issued it for at least three years.

3. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for the customs authorities to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an invoice declaration.

4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.

5. Any movement certificate EUR.1 or invoice declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 36

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 34 and 35 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Special Committee on Customs Cooperation and Trade Facilitation.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 37

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 38

Free zones

1. The CARIFORUM States and the EC Party shall take all necessary steps to ensure that products traded under cover of a proof of origin or a supplier's declaration and which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when originating products are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

Article 39

Derogations

1. Derogations from this Protocol may be adopted by the Special Committee on Customs Cooperation and Trade Facilitation, hereafter in this Article referred to as "the Committee", in favour of products exported from the CARIFORUM States.

2. Derogations from this Protocol may be adopted where the development of existing industries or the creation of new industries in the CARIFORUM States justifies the adoption of such derogations.

3. The CARIFORUM State or States concerned shall, either before or when the request for derogation is submitted to the Committee, notify the EC Party of its request for a derogation together with the reasons for the request in accordance with paragraph 5.

4. The EC Party shall respond positively to all the CARIFORUM States' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established EC Party industry.

5. In order to facilitate the examination by the Committee of requests for derogation, the CARIFORUM State or States making the request shall, by means of the form given in Annex VII to this Protocol, furnish in support of their request the fullest possible information covering in particular the following:

   – description of the finished product,

   – nature and quantity of materials originating in third countries,

– nature and quantity of materials originating in CARIFORUM States or the countries or territories referred to in Articles 3 and 4, or the materials which have been processed in these countries or territories,

– manufacturing processes,

– added value achieved,

– number of employees in the enterprise concerned,

– anticipated volume of exports to the EC Party,

– other possible sources of supply for raw materials,

– reasons for the duration requested in the light of efforts made to find new sources of supply,

– other observations.

The Committee may modify the form.

6. The examination of requests for derogation shall in particular take into account:

(a) the level of development or the geographical situation of the CARIFORUM State or States concerned;

(b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in a CARIFORUM State or States to continue their exports to the EC Party, with particular reference to cases where this could lead to cessation of its activities;

(c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realization of the investment programme would enable these rules to be satisfied by stages.

7. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.

8. The Committee shall take steps necessary to ensure that a decision on a request for derogation is reached as soon as possible and, in any case, not later than seventy-five working days after the request is received by the EC Party. If the EC Party does not inform the CARIFORUM State of its position on the request within this period, the request shall be deemed to have been accepted.

9. (a) The derogation shall be valid for a period, generally of five years, to be determinedby the Committee.

(b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the CARIFORUM State or States concerned submit, three months before the end of each period, proof that they are still unable to meet the conditions of this Protocol which have been derogated from.

If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 8. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

(c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

TITLE VI

CEUTA AND MELILLA

Article 40

Special conditions

1. The term "EC Party" used in this Protocol does not cover Ceuta and Melilla. The term "products originating in the EC Party" does not cover products originating in Ceuta and Melilla.

2. The provisions of this Protocol shall apply *mutatis mutandis* in determining whether products may be deemed as originating in a CARIFORUM State when imported into Ceuta and Melilla.

3. Where products wholly obtained in Ceuta, Melilla or in the EC Party undergo working and processing in a CARIFORUM State, they shall be considered as having been wholly obtained in a CARIFORUM State.

4. Working or processing carried out in Ceuta, Melilla or in the EC Party shall be considered as having been carried out in a CARIFORUM State, when materials undergo further working or processing in a CARIFORUM State.

5. For the purpose of implementing paragraphs 3 and 4, the insufficient operations listed in Article 8 of this Protocol shall not be considered as working or processing.

6. Ceuta and Melilla shall be considered as a single territory.

TITLE VII

FINAL PROVISIONS

Amendment of the Protocol

The Joint CARIFORUM-EC Council may decide to amend the provisions of this Protocol.

Article 42

Tasks of the Special Committee on Customs Cooperation and Trade Facilitation

Article 43

Review

The Parties shall review the provisions of paragraph 4 of Article 2 and of paragraph 4 of Article 4 after three years from the signature of this Agreement with a view to reducing the products listed in Annex X to this Protocol

Article 44

Annexes

The Annexes to this Protocol shall form an integral part thereof.

ANNEX I to Protocol I

Introductory notes to the list in Annex II[2]

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.

2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.

4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

1. The provisions of Article 7 of the Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the EC Party or in the CARIFORUM States.

   Example:

   An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading No ex 7224.

   If this forging has been forged in the EC Party from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the EC Party. The

[2] All examples are given for the purpose of explanation only. They are not legally binding.

value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non-originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3. Without prejudice to Note 3.2 where a rule states that "materials of any heading" may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading No ..." means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

   Example:

   The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

   Example:

   The rule for prepared foods of heading No 1904 which specifically excludes the use of cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

   However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

   Example:

   In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloth cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may

never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

2. The term "natural fibres" includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

   The following are the basic textile materials:

I.	Silk
II.	wool
III.	coarse animal hair
IV.	fine animal hair
V.	horsehair
VI.	cotton,
VII.	paper-making materials and paper
VIII.	flax,
IX.	true hemp,
X.	jute and other textile bast fibres

XI	sisal and other textile fibres of the genus Agave
XII.	coconut, abaca, ramie and other vegetable textile fibres
XIII.	synthetic man-made filaments
XIV.	artificial man-made filaments
XV.	current conducting filaments
XVI.	synthetic man-made staple fibres of polypropylene
XVII.	synthetic man-made staple fibres of polyester
XVIII.	synthetic man-made staple fibres of polyamide
XIX.	synthetic man-made staple fibres of polyacrylonitrile
XX.	synthetic man-made staple fibres of polyimide
XXI.	synthetic man-made staple fibres of polytetrafluoroethylene
XXII.	synthetic man-made staple fibres of polyphenylene sulphide
XXIII.	synthetic man-made staple fibres of polyvinyl chloride
XXIV.	other synthetic man-made staple fibres
XXV.	artificial man-made staple fibres of viscose
XXVI.	other artificial man-made staple fibres
XXVII.	yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped
XXVIII.	yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped
XXIX.	products of heading No 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film
XXX.	other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non-originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or

textile pulp) may be used up to a weight of 10 per cent of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped" this tolerance is 20 per cent in respect of this yarn.

4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10% of the total weight of all the textile materials incorporated.

   Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not be regarded as trimmings or accessories.

2. Any non-textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.

3. In accordance with Note 3.5, any non-originating non-textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

For example, if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process[3];

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerization;

   (h) alkylation;

   (i) isomerization.

2. For the purposes of heading Nos 2710, 2711 and 2712, the "specific processes" are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process (1)

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolorization and purification with naturally active earth, activated earth, activated charcoal or bauxite;

---

[3] For the purpose of subheadings 2712 90 31 to 2712 90 39, the term 'crude' shall be taken to apply to products of a natural colour higher than 3 by the ASTM D 1500 method, if their viscosity at 100° C is 9 x 10^{-6} m^2 s^{-1} or higher by ASTM D 445 method.

(g) polymerization;

(h) alkylation;

(i) isomerization;

(j) in respect of heavy oils falling within heading No ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250° C with the use of a catalyst, other than to effect desulphurization, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolorization) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.

For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

JOINT DECLARATION RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS

The EC Party acknowledges the right of the coastal CARIFORUM States to the development and rational exploitation of the fishery resources in all waters within their jurisdiction.

The Parties agree that the existing rules of origin have to be examined in order to determine what possible changes may have to be made in the light of the first paragraph.

Conscious of their respective concerns and interests, the CARIFORUM States and the EC Party agree to continue examining the problem posed by the entry, onto EC Party markets, of the fishery products from catches made in zones within the national jurisdiction of the CARIFORUM states, with a view to arriving at a solution satisfactory to both sides. This examination shall take place in the Special Committee on Customs Cooperation and Trade Facilitation.

DECLARATION OF THE CARIFORUM STATES RELATING TO PROTOCOL I ON THE ORIGIN OF FISHERY PRODUCTS FROM THE EXCLUSIVE ECONOMIC ZONE

The CARIFORUM States reaffirm the point of view they expressed throughout the negotiations on rules of origin in respect of fishery products and consequently maintain that following the exercise of their sovereign rights over fishery resources in the waters within their national jurisdiction, including the Exclusive Economic Zone, as defined in the United Nations Convention on the Law of the Sea, all catches effected in those waters obligatorily landed in the ports of the CARIFORUM states for processing should enjoy originating status.

JOINT DECLARATION RELATING TO PROTOCOL I CONCERNING THE PRINCIPALITY OF ANDORRA AND THE REPUBLIC OF SAN MARINO

1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonised System and products originating in the Republic of San Marino shall be accepted by the CARIFORUM States as originating in the European Community within the meaning of this Agreement.

2. Protocol 1 shall apply *mutatis mutandis* for the purpose of defining the originating status of the above-mentioned products.

Article 2

Scope

1. The Parties and the Signatory CARIFORUM States shall assist each other, in the areas within their competence, in the manner and under the conditions laid down in this Protocol, to ensure the correct application of the customs legislation, in particular by preventing, investigating and combating operations in breach of that legislation.

2. Assistance in customs matters, as provided for in this Protocol, shall apply to customs authorities of the Parties and the Signatory CARIFORUM States which are competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.

3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

Article 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.

2. At the request of the applicant authority, the requested authority shall inform it:

(a) whether goods exported from the territory of the CARIFORUM States or the EC Party have been properly imported into the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods;

(b) whether goods imported into the territory of the CARIFORUM States or the EC Party have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.

3. At the request of the applicant authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure special surveillance of:

(a) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;

(b) places where stocks of goods have been or may be assembled in such a way that there are reasonable grounds for believing that these goods are intended to be used in operations in breach of customs legislation;

(c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation; and

(a) activities which are or appear to be operations in breach of customs legislation and which may be of interest to the other Party or a Signatory CARIFORUM State,

(b) new means or methods employed in carrying out operations in breach of customs legislation,

(c) goods known to be subject to operations in breach of customs legislation,

(d) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation, and

(e) means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs legislation.

Article 5

Delivery and notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures in order:

(a) to deliver any documents, or

(b) to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

Article 6

Form and substance of requests for assistance

1. Requests for assistance pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

(a) the name of the applicant authority;

(b) the measure requested;

(c) the object of and the reason for the request;

(d) the legal or regulatory provisions and other legal elements involved;

(e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations; and

(f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests for assistance shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be applied.

Article 7

Execution of requests for assistance

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party or Signatory CARIFORUM State, by supplying information already in its possession, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party or Signatory CARIFORUM State.

3. Duly authorised officials of a Party or Signatory CARIFORUM State may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

4. Duly authorised officials of a Party or Signatory CARIFORUM State involved may, with the agreement of the other Party or Signatory CARIFORUM State involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

Article 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.

2. This information may be in computerised form.

3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

Article 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Signatory CARIFORUM State or the EC Party is of the opinion that assistance under this Protocol would:

(a) be likely to prejudice the sovereignty of a Signatory CARIFORUM State or that of a Member State of the European Community which has been requested to provide assistance under this Protocol; or

(b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefore must be communicated to the applicant authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties or the Signatory CARIFORUM States. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party or the Signatory

CARIFORUM State that received it and the corresponding provisions applying to the European Community authorities.

2. Personal data may be exchanged only where the Party or the Signatory CARIFORUM State which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Party or the Signatory CARIFORUM State that may supply them. To that end, parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the European Union.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties or the Signatory CARIFORUM States may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties or Signatory CARIFORUM State wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Article 12

Assistance expenses

The Parties or Signatory CARIFORUM States shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of the Signatory CARIFORUM States and on the other hand to the competent services of the Commission of the European Communities and the customs authorities of the Member States of the European Union as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.

2. The Parties and the Signatory CARIFORUM States shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

Article 14

Other agreements

1. Taking into account the respective competences of the European Community and the Member States of the European Union, the provisions of this Protocol shall:

   (a) not affect the obligations of the Parties and the Signatory CARIFORUM States under any other international Agreement or Convention,

   (b) be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States of the European Community and Signatory CARIFORUM States.

2. The provisions of this Protocol shall not affect the European Community provisions governing the communication between the competent services of the Commission of the European Communities and the customs authorities of the Member States of the European Community of any information obtained under this Protocol which could be of interest to the European Community.

3. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States of the European Community and any Signatory CARIFORUM State in so far as the provisions of the latter are incompatible with those of this Protocol.

4. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Special Committee on Customs Cooperation and Trade Facilitation set up under Article 36 of the CARIFORUM-EC Economic Partnership Agreement.

(c) Where preferential schemes for the promotion of local or regional cultural content are established by one or more Signatory CARIFORUM States, the Signatory CARIFORUM States concerned will extend to the works co-produced between producers of the EC party and of Signatory CARIFORUM States the preferential market access benefits of such schemes under the conditions laid down in paragraph (a).

1. Subject to the provisions of article 7 of this Agreement, the Parties agree to cooperate, in conformity with their respective legislation, including by facilitating increased contacts between practitioners of performing arts in areas such as professional exchanges and training, inter alia participation in auditions, development of networks and promotion of networking.

3. The Parties and the Signatory CARIFORUM States shall encourage the development of international theatre technology standards and the use of theatre stage signs, including through appropriate standardisation bodies. They shall facilitate cooperation towards this objective.

Article 8

Subject to the provisions of Article 7 of this Agreement, the Parties agree to cooperate, in conformity with their respective legislation, including by facilitating exchange with and dissemination of publications of the other Party in areas such as:

(a) organisation of fairs, seminars, literary events and other similar events related to publications, including public reading mobile structures;

(b) facilitating co-publishing and translations;

(c) facilitating professional exchanges and training for librarians, writers, translators, booksellers and publishers.

Article 9

Protection of sites and historic monuments

Subject to the provisions of Article 7 of this Agreement, the Parties agree to cooperate, including by facilitating support to encourage exchanges of expertise and best practices regarding the protection of sites and historic monuments, bearing in mind the UNESCO World Heritage mission, including through facilitating the exchange of experts, collaboration on professional training, increasing awareness of the local public and counselling on the protection of the historic monuments, protected spaces, as well as on the legislation and implementation of measures related to heritage, in particular its integration into local life. Such cooperation shall conform with the respective legislation of the Parties and the Signatory CARIFORUM States and is without prejudice to the reservations included in their commitments contained in Annex 4 of this Agreement.

JOINT DECLARATION ON DEVELOPMENT COOPERATION

The Parties recognize the important adjustment challenges that the implementation of this Agreement will pose, in particular to smaller economies among the CARIFORUM States. The Parties agree that an important number of commitments undertaken in this Agreement will require the rapid start of reforms. The Parties also recognize regional infrastructure as an important tool to enable the CARIFORUM States to take full advantage of the opportunities offered by this Agreement.

The Parties reaffirm the importance of ensuring the most efficient use of development finance resources, in order to meet the objectives of this Agreement, to maximize its potential and support its proper implementation, as well as to support the CARICOM Development Vision.

The Parties note the availability of €165 Million for financing the 10th EDF Caribbean Regional Indicative Programme (CRIP) and recall that under the Revised Cotonou Agreement, a successor to the current Financial Protocol will be agreed for the period 2014 – 2020. The Parties further recognize that the funds allocated to the Caribbean Regional Indicative Programme (CRIP) in the 10th EDF are to be complemented by Aid for Trade contributions by Member States of the European Union (EU).

Pursuant to both the EU Aid for Trade Strategy adopted in October 2007 and the funding instruments enumerated in Article 7 of Part I of this Agreement, the Member States of the European Union confirm their intention to ensure that an equitable share of Member States' Aid for Trade commitments will benefit the Caribbean ACP States, including for funding programmes related to the implementation of this Agreement.

The Parties agree on the benefits of regional development mechanisms, including a regional development fund, accessible to all CARIFORUM States, to mobilize and channel Economic Partnership Agreement related development resources from the European Union and other potential donors. In this respect, the European Commission and the Member States of the European Union will consider the necessary arrangements with the CARICOM Development Fund, once established, with a view to providing to the Fund resources to support the execution of programmes related to the implementation of this Agreement, as well as to support related adjustment measures and economic reforms. The EU contribution would complement the contribution that will have been made by the Caribbean States and other donors.

The Parties agree that addressing CARIFORUM's most immediate development cooperation priorities, related to the implementation of this Agreement, would be accorded high priority in the programming of resources, notably, those made available under the 10th EDF.

JOINT DECLARATION ON BANANAS

The Parties recognize the importance of bananas to the economic development of a number of CARIFORUM countries in terms of employment, foreign exchange and social and political stability.

They similarly recognize that CARIFORUM banana exports to the EU have been helped in the past by a substantial tariff preference and that the maintenance of such preference for as long as possible would increase the benefits resulting from this Agreement.

The CARIFORUM States also consider that the possible reduction of the MFN tariff and the implementation of Free Trade Agreements between the EC Party and certain third countries

would pose significant competitive challenges for the banana industry in several CARIFORUM countries.

Within the framework of European Community funding instruments, both Parties will decide on the programming of funds, in complementarity to the actions already funded, and with respect to the still available funds under the Special Framework of Assistance (SFA), to help the CARIFORUM banana industry to further adjust to the new challenges, including activities aimed at increasing the productivity and competitiveness in areas of viable production, the development of alternatives both within and outside the banana industry, addressing social impact arising from changes in the sector and for disaster mitigation.

JOINT DECLARATION ON USED GOODS

With regard to the controls on the importation of motor vehicles and motorcycles older than five years, and vehicles greater or equal to five tons older than 15 years, pursuant to Dominican Republic Law No. 147 of 27 December 2000 the EC Party undertakes not to challenge this law irrespective of the question of its compatibility with the Agreement.

JOINT DECLARATION ON RICE

The Parties commit to ensuring that the licensing and other arrangements for the administration of the tariff rate quota for rice, referred to in paragraph 2 of Annex 1, are kept under detailed review with a view to ensuring that the CARIFORUM rice exporting States obtain the maximum benefits of this Agreement.

JOINT DECLARATION ON REALLOCATION OF UNDELIVERED QUANTITIES UNDER THE SUGAR PROTOCOL

The EC Party and the Signatory CARIFORUM States party to the Sugar Protocol shall seek to reallocate until 30 September 2009 any undelivered quantities from such States amongst other CARIFORUM States party to the Sugar Protocol to the extent permitted by Article 7 of the Protocol.

CUSTOMS DUTIES ON PRODUCTS ORIGINATING IN CARIFORUM STATES

1. Without prejudice to paragraphs 2, 4, 5, 6 and 7 customs duties of the EC Party (hereinafter "EC customs duties") shall be entirely eliminated on all products of Chapters 1 to 97 of the Harmonized System, except those of Chapter 93 thereof, originating in a CARIFORUM State upon the entry into force of this Agreement. For products of Chapter 93 the EC Party shall continue to impose the applied MFN duties.

2. EC customs duties on the products of tariff heading 1006 originating in the CARIFORUM States shall be eliminated as from 1 January 2010, with the exception of EC customs duties on the products of subheading 1006 10 10 which shall be eliminated as from the entry into force of this Agreement. Until EC customs duties on the products of tariff heading 1006 originating in the CARIFORUM States are entirely eliminated, a tariff rate quota at zero duty of 187 000 tonnes shall be opened for calendar year 2008 for all products of tariff heading 1006 except for subheading 1006 10 10 originating in the CARIFORUM States. The tariff rate quota for calendar year 2009 shall be 250 000 tonnes.

3. The EC Party and the Signatory CARIFORUM States agree that the provisions of Protocol 3 of the Cotonou Agreement (hereinafter the "Sugar Protocol") shall remain applicable until 30 September 2009, and that after that date the Sugar Protocol shall no longer be in force between them. For the purposes of Article 4(1) of the Sugar Protocol, the delivery period 2008/9 will last from 1 July 2008 to 30 September 2009. The guaranteed price for 1 July-30 September 2009 shall be decided following the negotiation provided for in Article 5(4).

4. EC Customs duties on products of tariff heading 1701 originating in a CARIFORUM State shall be eliminated as from 1 October 2009. Until EC customs duties are entirely eliminated, and in addition to the allocations of tariff rate quotas at zero duty set out in the Sugar Protocol, a tariff rate quota at zero duty of 60 000 tonnes shall be opened for marketing year[2] 2008/2009 for products of subheading 1701, white sugar equivalent, originating in the CARIFORUM States, 30 000 tonnes of which will be reserved for the Dominican Republic. No import license shall be granted with regard to products to be imported under this additional tariff rate quota, unless the importer undertakes to purchase such products at a price at least equal to the guaranteed prices fixed for sugar imported into the EC Party under Sugar Protocol.

5. (a) The EC Party may, during the period between 1 October 2009 and 30 September 2015 impose the applied Most Favoured Nation duty on the products originating in CARIFORUM States of tariff heading 1701 sugar imported in excess of the following levels expressed in white sugar equivalent, which are deemed to cause a disturbance in the EC Party sugar market:

---

[2] For the purpose of paragraphs 4, 5, 6 and 7 "marketing year" means the period between 1 October and 30 September.

(i) 3.5 million tonnes in a marketing year of such products originating in States members of the African, Caribbean and Pacific Group of States (ACP States) signatory to the Cotonou Agreement, and

(ii) 1.38 million tonnes in marketing year 2009/2010 of such products originating in ACP States that are not recognised by the United Nations as least developed countries. The figure of 1.38 million tonnes shall increase to 1.45 million tonnes in marketing year 2010/2011, and 1.6 million tonnes in the following four marketing years.

(b) The importation of products of tariff heading 1701 originating in any CARIFORUM State that is recognised by the United Nations as a least developed country shall not be subject to the provisions of sub-paragraph 5(a). However, such imports shall remain subject to the provisions of article 25 of the Agreement.[3]

(c) The imposition of the applied Most Favoured Nation duty shall cease at the end of the marketing year during which it was introduced.

(d) Any measure taken pursuant to this paragraph shall be notified immediately to the CARIFORUM-EC Trade and Development Committee and shall be the subject of periodic consultations within that body.

6. As of 1 October 2015, for the purpose of the application of the provisions of Article 25 of the Agreement, disturbances in the markets of products of tariff heading 1701 may be deemed to arise in situations where the European Community market price of white sugar falls during two consecutive months below 80 percent of the European Community market price for white sugar prevailing during the previous marketing year.

7. From 1 January 2008 until 30 September 2015 products of tariff heading 1704 90 99, 1806 10 30, 1806 10 90, 2106 90 59 and 2106 90 98 shall be subject to a special surveillance mechanism in order to ensure the arrangements provided for in paragraph 4 and 5 are not circumvented. In the event of a cumulative increase of imports of such products originating in CARIFORUM States by more than 20 percent in volume during a period of 12 consecutive months compared to the average of the yearly imports over the three previous 12 month periods, the EC Party shall analyse the pattern of trade, the economic justification and the sugar content of such imports and, if it considers that such imports are used to circumvent the arrangements provided for in paragraphs 4 and 5, it may suspend the preferential treatment and introduce the specific MFN duty applied to imports pursuant to the European Community Common Customs Tariff for products of tariff heading 1704 90 99, 1806 10 30, 1806 10 90, 2106 90 59 and 2106 90 98 originating in CARIFORUM States. Sub-paragraphs 5(b), (c) and (d) shall apply mutatis mutandis to action under this paragraph.

8. Between 1 October 2009 and 30 September 2012 with regard to the products of tariff heading 1701, no preferential import license shall be granted unless the importer undertakes to purchase such products at a price not lower than 90

[3] For this purpose and by way of derogation to Article 25 of the Agreement, individual Signatory CARIFORUM State recognised by the United Nations as a least developed country may be subject to safeguard measures.

9. Paragraph 1 shall not apply to products of tariff heading 0803 0019 originating in CARIFORUM States and released for free circulation in the outermost regions of the EC Party. Paragraph 1, 3 and 4 shall not apply to products of tariff heading 1701 originating in CARIFORUM States and released for free circulation in the French outermost regions. These provisions shall be applicable for a period of ten years. This period shall be extended for a further period of ten years unless the Parties agree otherwise.

Annex 4. I

LISTS OF COMMITMENTS ON COMMERCIAL PRESENCE

(referred to in Article 69)

EC PARTY

1. The list of commitments below indicates the economic activities liberalised by the EC Party pursuant to Article 69 and, by means of reservations, the market access and national treatment limitations that apply to establishments and investors of the CARIFORUM States in those activities. The lists are composed of the following elements:

   (a) A first column indicating the sector or sub-sector in which the commitment is assumed by the Party, and the scope of liberalisation to which the reservations apply.

   (b) A second column describing the applicable reservations.

   When the column referred to under (b) only includes Member State-specific reservations, Member States not mentioned therein undertake commitments in the sector concerned without reservations (the absence of Member State-specific reservations in a given sector is without prejudice to horizontal reservations or to sectoral EC-broad reservations that may apply).

   Sectors or sub-sectors not mentioned in the list below are not committed.

2. In identifying individual sectors and sub-sectors:

   (a) ISIC rev 3.1 means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, N° 4, *ISIC REV 3.1,* 2002.

   (b) CPC means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, N° 77, *CPC prov*, 1991.

   (c) CPC ver. 1.0 means the Central Products Classification as set out in Statistical Office of the United Nations, Statistical Papers, Series M, N° 77, *CPC ver 1.0*, 1998.

3. The list below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 67 and 68 of the Agreement. Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

4. In accordance with Article 60(3) of the Agreement, the list below does not include measures concerning subsidies granted by the Parties.

5. In accordance with Articles 67 of the Agreement non-discriminatory requirements as regards the types of legal form of an establishment are not included in the list below.

6. The rights and obligations arising from this list of commitments shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.

To facilitate comprehension, specific footnotes in this list of commitments will indicate in an illustrative and non-exhaustive way those sectors where public utilities play a major role.

Sector or sub-sector	Description of reservations

(referred to in article 69)

CARIFORUM PARTY AND SIGNATORY CARIFORUM STATES

1. This "List of Commitments on Investment (Commercial Presence) in Economic Activities other than Services Sectors" (hereinafter referred to as the "Schedule") is limited to non-service sectors as described by the International Standard Industrial Classification of all Economic Activities as set out by the Statistical Office of the United Nations (ISIC Rev. 3.1). It includes the following sectors:

   A. Agriculture, hunting and forestry

   B. Fishing

   C. Mining and quarrying

   D. Manufacturing

   E. Production, transmission and distribution on own account of electricity, gas, steam and hot water

2. This Schedule sets out the reservations taken by signatory CARIFORUM States with respect to measures that do not conform with obligations set out in Title II of this Agreement. Only sectors in which there are reservations or limitations are listed but the Schedule covers all sub-sectors of the four sectors listed above.

3. This Schedule includes all CARIFORUM States, except The Bahamas and Haiti, unless otherwise stated. Sub-sectors of A, B, C and D that are not listed are open in all Signatory CARIFORUM States without limitations in market access or national treatment. CARIFORUM States that are not listed in sub-sectors included in this list are open without limitations on market access or national treatment in these sub-sectors.

4. Subject to article 238, the reservations listed in this Schedule apply only to the relations between signatory CARIFORUM States on the one hand and the European Community and its Member States on the other and do not affect the rights and obligations of the signatory CARIFORUM States arising from obligations under the Revised Treaty of Chaguaramas Establishing the Caribbean Community including the CARICOM Single Market and Economy, or the CARICOM-Dominican Republic Free Trade Agreement.

5. The CARIFORUM Party reserves the right to set out in its Schedule, within two years of the date of entry into force of this Agreement, any non-conforming measures existing at the time of the signature of this Agreement not hereinunder listed.

6. This Schedule cannot be construed as committing in any way to the privatisation of public undertakings nor as preventing any Signatory CARIFORUM State from regulating any sector or economic activity in order to meet national policy objectives.

7. The Schedule below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the

meaning of Articles 67 and 68 of the Agreement. Those measures (e.g. need to obtain a license, need to register with the Registrar of Companies, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to investors of the other Party.

8. Non-discriminatory requirements as regards the types of legal form of an establishment are not included in the list below.

9. The rights and obligations arising from this Schedule of commitments shall have no self-executing effect and thus confer no rights directly to natural persons or juridical persons.

CARIFORUM PARTY AND SIGNATORY CARIFORUM STATES

1. This "List of Commitments in Services Sectors" (hereinafter referred to as the "Schedule") is based on the UN Central Product Classification list and the services sectoral classification list (MTN.GNS/W/120) used in GATS negotiations but also includes some service activities not covered by these classification schemes.

2. This Schedule is consistent with the GATS scheduling template and includes only those service activities in which the Signatory CARIFORUM States are undertaking commitments. With respect to market access and national treatment commitments, the different modes of supply are indicated by the following numbers:

   1) Supply from the territory of a Party into the territory of the other Party (Mode 1);

   2) Supply in the territory of a Party to the service consumer of the other Party (Mode 2);

   3) Supply through commercial presence (Mode 3);

   4) Supply through the presence of natural persons (Mode 4).

3. With regard to the categories of natural persons listed in Chapter 4 of Title II the following should be noted:

   Key Personnel and Graduate Trainees – where there is a commitment in Mode 3 there is an automatic commitment regarding temporary entry for these categories of persons, subject to an economic needs test, unless otherwise indicated.

   Contractual service suppliers (CSS) and independent professionals (IP) – commitments are undertaken only where specifically indicated in the Schedule by CSS or IP. Where a commitment on contractual service suppliers or independent professionals is included in this Schedule it is subject to the conditions stipulated in Article 83, unless otherwise stated.

4. Where there is an indication of "None" for Mode 4 it means that there are no limitations or restrictions for all categories of natural persons except contractual service suppliers and independent professionals.

5. In those sectors in which economic needs tests (ENTs) are applied for Mode 4, the main criterion will be availability of persons with the requisite skills in the local labour market. With regard to other modes of supply, the main criteria for ENTs will be the assessment of the relevant market situation where the service is to be provided, with respect to the number of, and the impact on, existing service suppliers.

6. This Schedule includes all CARIFORUM States, except The Bahamas and Haiti, unless otherwise stated.

7. Subject to article 238, the market access commitments and reservations listed in this Schedule apply only to the relations between the Signatory CARIFORUM States on the one hand and the European Communities and their Member States on the other and do not affect the rights and obligations of the signatory CARIFORUM States

arising from obligations under the Revised Treaty of Chaguaramas Establishing the Caribbean Community including the CARICOM Single Market and Economy, or the CARICOM-Dominican Republic Free Trade Agreement.

8. This Schedule of commitments cannot be construed as offering in any way the privatisation of public undertakings nor as preventing any Signatory CARIFORUM State from regulating any sector or economic activity in order to meet national policy objectives.

9. With regard to the economic activities covered in Chapters 2 and 3 of Title II, other than public services, without prejudice to the content of the list of commitments on commercial presence and on cross-border supply in this Annex, the Signatory CARIFORUM States shall maintain the conditions of market access and national treatment in the meaning of Articles 67 and 68, and Articles 76 and 77 applicable according to their respective legislation to services, service suppliers, investors and commercial presences of the EC Party at the time of the signature of this Agreement.

10. The Schedule of commitments may not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures when they do not constitute a market access or a national treatment limitation within the meaning of Articles 67 and 68, and 76 and 77 of the Agreement. Those measures (e.g. need to obtain a license, need to register with the Registrar of Companies, universal service obligations, need to obtain recognition of qualifications in regulated sectors, need to pass specific examinations, including language examinations, non-discriminatory requirement that certain activities may not be carried out in environmental protected zones or areas of particular historic and artistic interest), even if not listed, apply in any case to service suppliers of the other Party.

11. The rights and obligations arising from this Schedule of commitments shall have no self-executing effect and thus confer no rights directly to natural persons or juridical persons.
